NOTICE OF IMMINENT CONSTRUCTION

BALLONA CREEK RAIN GARDEN PROJECT, PHASE II, P-900

This is to advise you that a construction contract has been awarded for a Public Works improvement project along the Ballona Creek Bikepath from Overland Avenue to the Pedestrian Bridge (north of Ocean Drive and Westwood Blvd). **The work is scheduled to begin on Wednesday, May 30, 2012 and to be completed in late July 2012.** This project consists of the following improvements:

> Installation of four catch basins with filtration devices to filter the rain water run-off of most pollutants collected from School District parking and playground areas. The storm water will then be conveyed into two new rain gardens and into engineered dispersal chamber systems to be constructed within the existing landscaped slope area.

Due to the construction, you may experience certain temporary inconveniences such as day-time construction noise, dust, etc., even though every effort will be made by the City and the Contractor to minimize these inconveniences. Your patience and cooperation in observing all traffic controls, bikepath closures, and parking restrictions will be sincerely appreciated and will help in expediting construction of this important project. If this notice is delivered to a multi-unit complex, we request the manager notify all occupants personally or via conspicuous posting in the mail delivery area.

Bikepath Closure

The bikepath between Overland Avenue and Pedestrian Bridge (north of Ocean Drive and Westwood Blvd) will be closed for pedestrian and bicycle traffic during construction. Please observe posted detours and construction signs.

Please direct all inquiries or concerns to either the City's Construction Manager or the Construction Superintendent noted
