"Creating Community Through People, Parks, and Programs"

Message from the PRCS Director

As we end 2011 and look forward to 2012, your PRCS Department is excited to continue to provide high quality programs and facilities. We have also made it our goal to make services easier for you to access. Along these lines, we will be introducing our ActiveNet on line registration program to make it easier for you to register for programs and classes with the ability to reserve park areas due out in the Spring of 2012.

We are also undergoing major renovations to the Veteran's Memorial Building beginning January 1st and opening back up to the community on April 1st. These improvements will include new auditorium seats, handicapped access improvements for the restrooms, refinishing the floors and painting. As always, we will continue to provide you with a wide variety of activities for you and your families to enjoy. If you have any questions or comments, please call us, we are here to serve you!

Daniel Hernandez, PRCS Director
