### MISCELLANEOUS FEES AND CHARGES

#### DIGITAL IMAGING AND STORAGE OF PLANS AND DOCUMENTS AND TECHNOLOGY IMPROVEMENTS FEE:

California Health and Safety Code §19850 requires local jurisdictions to maintain official copies of the plans of every building for which a building permit has been issued. California Health and Safety Code §19852 allows the City to recover the costs of maintaining official copies of building plans through the imposition of fees.

1. In addition to any other fees, a permit fee surcharge totaling four percent (4%) of any building, mechanical, plumbing and/or electrical permit and plan check fee; Planning discretionary review and Planning permit and plan check fee; Fire Prevention permit and plan check fee; or Engineering permit and plan check fee is hereby adopted and shall be paid by the applicant prior to the issuance of any such permit.
2. The surcharge shall be used by the City solely to fund digital imaging and storage of plans and documents and technology improvements and maintenance to enhance customer service.
3. The City Manager, upon the recommendation of the Community Development Director, may waive the fee established herein when the applicant is another governmental agency or 501(c)(3) charitable nonprofit organization.

To protect the public health, safety and welfare, additional staff time is required to evaluate each application from telecommunications companies regarding proposed provision of telecommunication services and/or use of the City's public-rights-of-ways for the installation of wires, conduits, mechanisms and/or facilities. The complexity and extent of telecommunication laws and regulations may require the City to obtain outside consultation to protect the public health, safety and welfare and the City is authorized to charge fees for services rendered.

The following fees shall be charged to any telecommunications company proposing to provide services to residents and/or businesses within the City and/or to utilize the public rights-of-ways for the purpose of installation or modification of overhead or underground wires and/or conduits and/or mechanisms and/or facilities for telecommunication services.
