

## Planned Outage Notification

This is a courtesy notification for local government officials regarding planned outages in your community.

SCE will soon be performing maintenance on the electrical system in the area. In order to perform this work safely, we must temporarily interrupt electric service and turn off power. This outage will allow us to upgrade aging infrastructure, make needed improvements, and complete other repairs. We realize this temporary service interruption may cause some inconvenience, and we appreciate your understanding as we work to increase system reliability for the future.

Please advise the appropriate personnel of the following:

Outage Status: Rescheduled  
Outage Alert Num: 489746  
Starting at: February 9, 2012 8:00 p.m.  
Ending at: February 10, 2012 6:00 a.m.  
# of Residential customers affected: 0  
# of Commercial customers affected: 73  
# of Traffic Control meters affected: 1  
Outage Boundary: SOUTH SIDE WASHINGTON BL & EAST OF HIGUERA ST  
3757 ROBERTSON BLVD  
NATIONAL/WASHINGTON

\*Please note that the power may be off for the whole period or may be turned off more than once. This planned outage may not begin exactly at the stated start time, and some conditions may cause this planned outage to be postponed. The times noted are our best estimate and circumstances may affect both the start time and the completion time indicated above. For current planned outage status, please visit our website <http://www.sce.com/outage>.

If you have any questions, please call our toll free customer service line at 1 (800) 611-1911.

Sincerely,

SCE Planned Outage Communications

### Why:

Certain conditions caused your planned outage to be rescheduled. We apologize for the inconvenience, and thank you for your patience. Planned power outages give us the opportunity to complete ongoing maintenance or upgrade the grid with newer materials and technologies. It is part of our long-term plan to help revitalize Southern California's power grid.

We also take these opportunities to install smart grid technology that makes the power grid better able to handle the increasing demand that a growing population requires.

### How to prepare:

- Make sure food stays as cold as possible by keeping refrigerator and freezer doors closed and placing blocks of ice inside. For more information, visit [sce.com/foodsafety](http://sce.com/foodsafety).
- Unplug sensitive electronic equipment, such as computers and televisions.
- Learn how to manually open security gates and garage doors.
- Notify any security companies you use to monitor your home or business.
- Business customers without a backup power supply should rent one, if needed.
- If you use a backup generator and have not registered the information with SCE, let us know before the outage so we can protect our employees from electrical backfeed.

### \*About scheduled time:

Power outages may not begin or end at exactly the stated times. In order to cause you the least amount of inconvenience, SCE isolates the outages down to the smallest area possible and completes the work safely and as quickly as we can. Please be aware that your power may be turned on and off again more than once during the time period listed.
