The City of Culver City Building Safety Division, as required by State law, CAN NOT approve projects that do not comply with the codes in effect at the time of plan submittal. All projects submitted before December 31, 2022, are to comply with the 2019 Edition of the California Building Standards Code.
County and State Requirements

The permit applicant must obtain the following separate approvals prior to permit issuance when required.

Air Quality Control Management District (AQMD) - [http://www.aqmd.gov](http://www.aqmd.gov)
Any equipment that emits or controls air contaminants (such as nitrogen oxides or reactive organic gases) requires a permit from AQMD prior to construction, installation, or operation unless it is specifically exempted from the permit requirement by AQMD Rule 219.

CAL-OSHA - Division of Occupational Safety and Health - [http://www.dir.ca.gov/dosh/EnforcementPage.htm](http://www.dir.ca.gov/dosh/EnforcementPage.htm)
Under Section 17922.5 of the Health and Safety Code, a permit from the Division of Occupational Safety and Health is required for construction activities prior to the issuance of a building permit when trenches or excavations are five (5) feet or deeper and into which a person is required to descend, constructing, or demolishing a building, structure, falsework or scaffolding more than three stories high or the equivalent height, or using diesel engines in underground work in mines and tunnels.

Los Angeles County Health Department - [Construction Requirements for Retail Food Facilities](http://www.health.ca.gov/)
Under Section 27550 of the Uniform Retail Food Facilities Law (CURFFL), a permit from the Health Department is required prior to the issuance of a building permit for all food facility projects such as restaurants, retail markets, bakeries, or bars.
