Outage # 759444
Service will be affected at:
JEFERSN/ COTA
CULVER CITY

Friday, April 29, 2016
9:00 a.m. - 2:30 p.m.*

Why it’s important:
Maintenance power outages give us the opportunity to install smart technology that makes the power grid better able to handle the increasing demand that a growing population requires. We also upgrade to new equipment and cable that will make it easier to restore your power in the future.

How to prepare:
- Make sure food stays as cold as possible by keeping refrigerator and freezer doors closed and placing blocks of ice inside. For more information, visit sce.com/foodsafety
- Unplug sensitive electronic equipment, such as computers and televisions
- Learn how to manually open security gates and garage doors
- Notify any security companies you use to monitor your home or business
- Customers who need backup power should rent a generator. Please ensure your generator is registered with SCE to help protect our employees from unexpected electrical backfeed
- Customers dependent on life-support equipment should be prepared with a back-up power system or other plans to ensure health and welfare during outages

Want to know the current status of your outage?
Enter your outage number at:
