Travel Demand Forecast Model (TDFM) and
SB 743 Implementation Services
RFP #1830

I. Request Summary
The City of Culver City (City) invites qualified firms to respond to this RFP for the creation of a Travel Demand Forecast Model (TDFM) and Senate Bill (SB) 743 implementation services. The City is seeking preparation of a Culver City-specific model to be used citywide to analyze the impact of citywide plans, land use changes, and development projects on the City’s transportation system, and develop a multimodal transportation strategy for the City. The TDFM will enable the City and outside consultants to assess the individual and cumulative traffic impacts of development projects in the City.

The City desires a model that has the capacity to analyze how development projects impact vehicle miles traveled (VMT) and greenhouse gas (GHG) emissions, in accordance with the new CEQA criteria required by SB 743. The City anticipates preparation of the model to take one year or less once an agreement with the selected firm is executed. The first model runs will be for analysis of impacts associated with the City’s General Plan Update (GPU) project. Thereafter, services for SB 743 implementation would be provided on an as-needed basis under a separate contract. It is assumed at this time that the selected firm will continue to assist the City after the model launch with long-term operation and management of the model. This role could potentially decrease over time should the City at any point decide to train City staff to assist with managing the model. The City has not yet identified a budget for this project.

II. Introduction

A. Community profile
The small-town values that characterize Culver City seem at odds with its emergence as a modern media and tech destination. Over the years, the City has partnered with the private sector to initiate new development and spur private reinvestment. These efforts have produced new opportunities to live, work and play in Culver City; giving rise to significant economic growth and structural change. Some key Culver City features include:

- City Council/City Manager form of government
- Council Members elected at-large
- 5 square miles of approximate land area
- 40,000 approximate residential population
- 60,000 approximate daytime population
- $231 million in 2017-18 fiscal year budget
- $118 million in 2017-18 General Fund
- Southern California Community Hospital, Culver City Unified School District, City of Culver City, Sony Studios, and Culver Studios five largest employers
- Culver CityBus operates bus service throughout the Westside and provides service to multiple Metro rail stations.

B. Background
Pursuant to SB 743, the City is moving toward Vehicle Miles Traveled (VMT) per capita and VMT per employee traffic forecast modeling as the new metrics in transportation analysis to identify and mitigate impacts. The Culver City 5-Year Strategic Plan, adopted in 2016, requires circulation improvements and reducing traffic congestion (Goal Three, Objective 1a). The objective is to work toward no overall growth in average daily traffic (ADT) volume citywide (zero ADT growth) while enhancing traffic safety.

By summer 2018, the Public Works Department’s work plan calls for a plan to be developed for the City to be in SB 743 compliance. The work includes reviewing the City’s Traffic Study Guidelines, establishing new transportation review procedures, and adopting new VMT-based traffic impact thresholds to replace the existing LOS impact threshold. The work plan calls for this work to be coordinated with the City’s GPU effort. The City’s revised traffic study guidelines may continue to include analyses of LOS for informational purposes.

C. General RFP submittal information
The City’s designated staff will evaluate proposals received. During the review process, the City reserves the right, where it may serve the City’s best interest, to request additional information or clarification from those that submit proposals, or allow clarifications, corrections of errors, or omissions. Any and all changes in the RFP will be made by written addendum, which shall be issued by the City to all prospective proposers who have registered for the RFP via the City’s website.

The City reserves the right to retain all proposals submitted. Submission of a proposal indicates the Proposer’s acceptance of the conditions contained in this RFP, unless clearly and specifically noted in the proposal submitted and confirmed in the contract between the City and the Proposer selected.

The preparation of the proposal will be at the total expense of the Proposer. There is no expressed or implied obligation for the City to reimburse responding Proposers for any expense incurred in the preparation of proposals in response to this RFP. All proposals submitted to the City shall become properties of the City and will not be returned. If any information in your proposal is confidential and/or proprietary, please further submit a separate, redacted copy for servicing public records requests.

The proposer may submit an alternative proposal (or proposals) that it believes will also meet the City’s project objectives but in a different way. In this case, the proposer must provide an analysis of the advantages and disadvantages of each of the alternatives, and discuss under what circumstances the City would prefer one alternative to the other(s). If an alternative proposal is submitted, the maximum length of the proposal may be expanded proportionately by the number of alternatives submitted.

The City reserves the right to reject any or all proposals, in whole or part, to waive any informality in any proposal, and to accept the proposal which, in its discretion, is in the best interest of the City. Any proposer may withdraw his proposal, without obligation, at any time prior to the scheduled closing time for receipt of proposals. A withdrawal will not be effective unless the City receives notification by email to ashley.hefner@culvercity.org. Proposals may later be referred to the City Council for appropriate action.

All proposals are due not later than 3:00 p.m. on Thursday, March 22, 2018, at which time they will be opened at the City Clerk’s Desk on the First Floor of City Hall. Late submissions will not be accepted. To be considered, proposers must send one (1) color original, one (1) USB flash drive with a searchable PDF copy of the proposal in its entirety and three (3) hard copies of their proposal in a sealed envelope with the name of the company.
