Dear Ms. Jordan:

This is to follow Caltrans' comment letter dated October 13, 2015 and Traffic Study Memorandum from PSOMAS dated 11/02/15. We have the following comment after reviewing the memorandum.

We concluded that this project will have minimum traffic impact on the State facilities based on the traffic data provided. Storm water run-off is a sensitive issue for Los Angeles and Ventura counties. Please be mindful that projects should be designed to discharge clean run-off water. Transportation of heavy construction equipment and/or materials, which requires the use of oversized-transport vehicles on State highways, will require a transportation permit from Caltrans. It is recommended that large size truck trips be limited to off-peak commute periods.

Caltrans is committed to working with the City in an effort to alleviate traffic congestion on State transportation facilities. If you have any questions, please feel free to contact Mr. Alan Lin the project coordinator at (213) 897-8391 and refer to IGR/CEQA No. 151101AL.

Sincerely,
