FINANCE DEPARTMENT

9770 CULVER BOULEVARD, CULVER CITY, CALIFORNIA 90232-0507

December 30, 2019

Honorable Mayor, Members of the City Council, and Citizens of Culver City:

It is our pleasure to submit the Comprehensive Annual Financial Report (CAFR) of the City of Culver City for the fiscal year ended June 30, 2019. Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. In our opinion, the data is accurate in all material aspects, is presented in a manner designed to fairly set forth the financial position and results of operations of the City, and contains all disclosures necessary to enable the reader to gain an understanding of the City's financial affairs.

The financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) as promulgated by the Government Accounting Standards Board (GASB). This report consists of management's representations concerning the finances of the City of Culver City, California. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by The Pun Group, LLP, a public accounting firm duly licensed and qualified to perform audits of the State and local governments within the State of California. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Culver City, California for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Culver City, California's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

This CAFR is legally required by the City Charter, various bond covenants, and a number of granting agencies. The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of the Federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of *Management's Discussion and Analysis* (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors in the financial section of the CAFR.

Profile of the City of Culver City

The City of Culver City, located on the Westside of Los Angeles County, California, was incorporated in 1917. The City Charter, which was adopted in 1947, establishes the form of government, states the powers and duties of the City Council, and establishes various City offices. The City operates under a Mayor/City Council-City Manager form of government. Under this system, the people elect a City Council of five citizens who serve a term of four years and who, in turn, elect the Mayor from among themselves. The City Council appoints the City Manager, City Attorney, Police Chief and Fire Chief. Other department heads are appointed by the City Manager.

Culver City is a full-service City, serving a resident population of 40,000 and a daytime population of approximately 60,000¹. Services provided include police, fire, general maintenance, public improvements, planning and zoning, refuse collection, municipal bus lines, park, recreation and community services, and general administrative services.

The annual budget serves as the foundation for the City financial planning and control. The City Council is required to adopt an annual budget resolution by July 1 of each fiscal year for the General Fund and Special Revenue Funds. It also adopts a project life budget for Capital Projects Funds and an operating plan for Proprietary Funds. These budgets are adopted and presented for reporting purposes on a basis consistent with generally accepted accounting principles.

The City of Culver City is also financially accountable for the legally separate Culver City Housing Authority and Culver City Parking Authority, which are blended into the City's financial statements. Pursuant to legislation enacted by the State, the Redevelopment Agency was dissolved on January 31, 2012. Additional information on all of these entities can be found in Note 1 of the Notes to the Financial Statements. Additional information on the dissolution of the Redevelopment Agency can be found in Note 16 of the Notes to the Financial Statements.

The level of appropriated budgetary control is the total adopted budget, which is defined as the total budget for all funds and divisions and includes all revisions and amendments approved by the City Council subsequent to the initial budget adoption. The City Manager may authorize transfers of appropriations within the adopted budget. Supplemental appropriations during the year must be approved by the City Council, with certain exceptions delegated to the City Manager in the Budget Resolution adopted annually by City Council. Unexpended or unencumbered appropriations lapse at the end of the fiscal year. Encumbered appropriations are reappropriated in the ensuing year's budget. The City utilizes an encumbrance accounting system, whereby commitments such as purchase orders and unperformed contracts are recorded as restricted fund balances at year-end.

V

¹ Population estimates from the U.S. Census Bureau; Census 2010 PHC-T-40; "Estimated Daytime Population and Employment-Residence Ratios: 2010"

History of Culver City

Native Americans of Shoshonean origins were the first known inhabitants of the area which became Culver City. Although Cabrillo anchored his small ship in the port of San Diego in 1542, it was not until the threat of aggression by other countries, that King Carlos III of Spain mandated colonization in 1769. Franciscan Father Junípero Serra began to establish the missions from San Diego northward. The natives became known as the "Gabrielino Indians", due to their proximity to the San Gabriel Mission (est. 1771). In 1781, the "Pueblo de Nuestra Señora la Reina de Los Angeles" was established by eleven families and an escort of Spanish soldiers. On a later expedition that year, a young soldado, José Manuel Machado arrived in California with his wife. Machado was destined to complete his military duty and retire with his family to the pueblo in 1797. After Machado's death in 1810, two of his sons, José Agustín and José Ygnacio joined Felipe Talamantes and his son Tomás to graze cattle to the west, where they claimed the 14,000 acre Rancho La Ballona. By 1865, when Agustín Machado, (the most prominent owner), died, Rancho La Ballona had functioned under three governments: Spain, Mexico and the United States.

The Gold Rush and the Railroad moved people west. Abbot Kinney bought the land to develop his "Venice of America" in 1904. A young man from Nebraska, named Harry H. Culver arrived in California in 1910 and went to work in real estate for I. N. Van Nuys. Culver studied the area and in 1913 announced his plans for a city halfway between the pueblo of Los Angeles and Kinney's resort of Venice. Culver envisioned a balanced community with a residential/commercial mix.

Culver, who was already enamored by the movie industry, saw Thomas Ince making a movie with "painted Indians" in canoes on La Ballona Creek. He convinced the moviemakers to move from "Inceville" north of Santa Monica to property on Washington Boulevard. This first major movie studio became a "city within a city", eventually six lots, covering more than 180 acres. What began as Ince/Triangle Studios became Goldwyn, then successively Metro Goldwyn Mayer, Lorimar and Columbia Pictures. In 1989, electronics and information technology giant Sony Corporation purchased Columbia Pictures and the site is now the global headquarters for Sony Pictures Entertainment.

Ince had moved east on Washington Boulevard to establish his second studio in 1919. After he died in 1924, this studio prospered as De Mille Studios, Selznick Studios, R.K.O., Pathe, R.K.O.-Pathe, Desilu, Culver Studios, Laird International, and most currently, The Culver Studios. It was on this studio's back lot that Atlanta was burned for "Gone with the Wind". The third major studio was Hal Roach Studios, which existed from 1919 through 1963. It was known as the "Laugh Factory of the World", where the Our Gang Comedies and Laurel and Hardy were filmed. Hence, the "Heart of Screenland" appears on our City Seal.

The first City offices where the early "Board of Trustees" met were located on the second floor of the local theater, which Harry Culver moved to build his six-story Hunt Hotel in 1924. "City Hall" relocated to Van Buren Place until 1928 when the New City Hall was dedicated at 9770 Culver Boulevard. That structure made way for another new City Hall that was completed in 1995. Through a series of more than 40 annexations over the years, Culver City grew from 1.2 to 5.13 square miles.

In the twenties, Culver City was known for its nightspots like Fatty Arbuckle's Plantation Cafe and Frank Sebastian's Cotton Club. Western Stove on Hays (National) marked the beginning of industry in 1922. Despite the Depression, building continued with endeavors like Helms Bakery which supplied foodstuffs for the 1932 Olympics in Los Angeles. The first Industrial tract, the Hayden Tract, became a reality in the forties. In the late forties, Culver City became a Charter City with a Unified School District. Our Junior and Senior High Schools were built to complement what eventually numbered eight elementary schools (presently there are five.) Hughes Aircraft located nearby and became a major employer of Culver City residents, like Helms and the studios. In 1950, the Veterans' Memorial Building was completed, Culver Center was built, car dealerships lined Washington Boulevard and the Fiesta La Ballona celebrated the Spanish heritage of the area beginning in 1951. In the fall of 1975, Fox Hills Mall was completed as the first major Redevelopment project. The Filmland Corporate Center, Meralta Plaza and the beginnings of Corporate Pointe were projects of the 80's.

Redevelopment efforts continued in Downtown Culver City in the early 2000's. With the redevelopment of the Helms and Beacon Laundry buildings into the Helms Furniture District, new theatres in the center of the City including the redevelopment of the Culver Theatre into the Kirk Douglas Theatre, the 12 screen Arclight Theater Complex and the Actor's Gang at the Ivy Substation, a number of highly rated new restaurants, a thriving arts district on the eastside and development of the western portion of the City, Culver City continues to move forward. Redevelopment efforts were significantly thwarted with the elimination of redevelopment agencies throughout the State of California. In December 2013, the Successor Agency to the Culver City Redevelopment Agency (Successor Agency) received a 'finding of completion' from the State's Department of Finance (DOF). This allowed the Successor Agency to submit a Long Range Property Management Plan (LRPMP) to the DOF that details how the former Redevelopment Agency properties will be disposed of. The LRPMP was approved in March of 2014. As a result, significant projects such as the Culver Steps (formerly referred to as "Parcel B"), Culver Public Market and the Ivy Station Complex are now underway.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Culver City, California operates.

Nationally, reports continue to demonstrate signs of continued modest economic growth. Gross domestic product has continued steady growth throughout the year, the U.S. economy grew modestly in the third quarter of 2019, the U.S. dollar remains in a strong position and unemployment rate decreased in Nov 2019. The Federal Reserve has reversed nearly all of 2018's rate increases in 2019 cutting interest rates for the third time in October. This interest rate change is anticipated to be an added factor in California's shifting housing market. Property values increased steadily, though housing sales declined modestly in the year. The political climate continues to pose uncertainty on the national economic outlook due in part to contentious federal trade policies, and major projections have the economy growing more slowly within the next year or two. We will be cautiously monitoring these critical political decisions and their effect on our national, state and local economies.

Local Economy

Culver City has a relatively diverse and strong economy. The City's business community is comprised of a diverse collection of businesses ranging from traditional retail and manufacturing businesses to a major film studio. Mainstay firms such as Costco, Westfield-Culver City Mall and Sony Pictures Entertainment occupy a traditional niche as large institutional property owners, tax producers and employers. Additions to the business community also include Amazon, which has taken occupancy at the Culver Steps, as well as Apple which has occupied creative office space at the corner of Washington and National Boulevards.

The dissolution of the Redevelopment Agency was effective on January 31, 2012, at which time all of the assets held by the former Redevelopment Agency were transferred to the Successor Agency to the Culver City Redevelopment Agency. Pursuant to the Dissolution bill, the City of Culver City elected to serve as the Successor Agency charged with winding down the affairs of the Redevelopment Agency. The Successor Agency will only receive property tax increment to repay debt and enforceable obligations that were incurred prior to June 26, 2011. Any property tax increment in excess of the former Agency's enforceable obligations will be disbursed to taxing entities.

Major Initiatives and Improvements for Fiscal Year 2019-2020

While several years past, it is of importance to note during the most recent recessionary period, City management took a number of steps to address the City's fiscal challenges. Many of these improvements persist in the City's current financial structure. Initiatives included increasing cost recovery, utilizing assessment districts, eliminating positions, and renegotiating labor agreements. Despite efforts to balance the budget without significantly impacting services, an ongoing structural deficit still existed. To address the structural deficit, the City put forth three revenue measures for consideration by the electorate. An increase of the City's Transient Occupancy Tax from 12% to 14% was approved by voters in April 2012. More significantly, a half-cent transaction and use tax was placed on the ballot (Measure Y) in November 2012. Residents overwhelmingly approved the transaction and use tax, which became effective on April 1, 2013 and raised approximately \$9.5 million during FY2018/2019 to solidify the City's financial position. Measure Y is set to automatically expire in 2023 if not extended by voters. This year City Council approved the ballot measure to extend and amend the expiration date from March 31, 2023 to March 31. 2033 for inclusion in the special election to be held on March 3, 2020. An additional quarter-cent sales tax (Measure C) was approved in November 6, 2018, which went into effect beginning April 1, 2019 and is expected to generate an estimated \$5 million per year.

The City plans to continue taking steps to become more efficient, and ensure that operating revenues cover operating expenditures.

The budget contains major work plans for each department and a citywide capital project plan to address the highest priorities of the community and the goals of the City Council. Although the City does have fiscal issues that will need to be addressed, following are major work programs and community reinvestment and improvement projects that received funding in the FY 2018/2019 adopted budget:

1. Community Service Improvements

- a. Continue installation of the Real Time Motorist Information System (RTMIS) in the parking structures in the down- town area of Culver City.
- b. Continue Washington and Culver Pedestrian safety improvements with high visibility crosswalks and corner curb extensions.
- c. Continue realignment of Culver Boulevard from Commonwealth Ave to Elenda Street.
- d. Complete replacing existing high voltage series circuit streetlights to low voltage parallel circuit streetlights or replace with energy efficient light fixtures

2. Community Reinvestment

- a. Continue negotiations with enterprise businesses within the City for dark fiber leases, customer leases, and Internet Service Providers to enhance broadband service
- b. Implement a Wi-Fi strategy leveraging the municipal fiber instrastructure to extend the City's Wi-Fi to municipal locations
- c. Continue the construction of Bankfield Pump Station

3. Internal Operational Improvements

- a. Complete implementation of replacement for existing timekeeping software
- b. Continue to work with consultant to complete review of City cash handling, enterprise risk assessment, grant management, fleet management and internal control.

All of the City's operations, including the community service improvements, community reinvestment, and internal operational improvements identified above, are funded by various taxes, fees and fines levied on consumers, residents, businesses, and developers operating within the City.

A brief historical discussion of the City's major revenue sources is contained in the following section.

Major General Fund Revenues

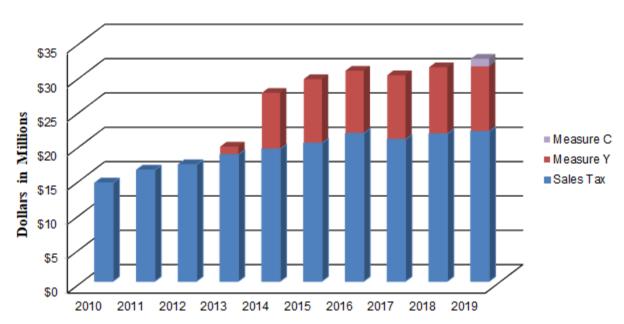

Major sources of General Fund revenue for the City include Sales Tax, Business Tax, Utility User Tax (UUT), Property Tax and Transient Occupancy Tax (TOT).

Sales Tax

Sales Tax is Culver City's single largest revenue source. The State of California imposes a 10.25% sales and use tax on all taxable sales in the City, of which the City receives 1.0% of the transactions subject to the sales and use tax. Due to its reliance on consumer spending, this revenue source is highly volatile. Despite the City's diverse economic base, the City's sales taxes are the revenue source most vulnerable to recessionary conditions, as evidenced in FY2009/2010.

Sales tax accounted for 18.2% of General Fund revenue for FY2018/2019, closing the year at \$21.8 million. With Measure Y taking effect in April 2013, FY2018/2019 was the sixth full year of the local sales tax measure with receipts totaling \$9.48 million, accounting for 7.9% of General Fund revenue. With Measure C taking effect in April 2019, fiscal year 2018-19 with receipts totaling \$1.12 million, accounting for 0.9% of General Fund revenue.

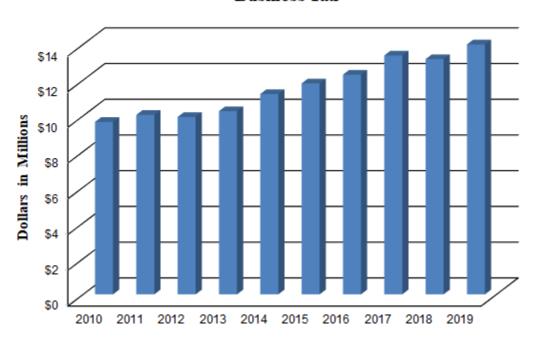

Business Tax

Business Tax revenue accounts for approximately 11.7 % of the General Fund revenue. Annually, all entities conducting business in Culver City are required to pay business taxes. Like Sales Tax, Business Tax revenue is highly dependent on national and regional economic forces. Consequently, Business Tax revenue is relatively volatile. This tax dipped in FY2009/2010 due to the recession, but has since improved and now exceeds pre-recession totals. Business Tax revenue is based on a businesses' gross receipts, which is a measure of the amount of business they do in the City.

FY 2018/2019 Business Tax receipts, including penalties, were \$13.99 million, a modest incline of 6.3% from the previous fiscal year.

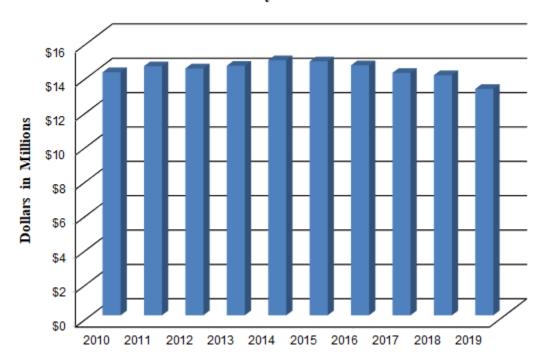

Utility User Tax

Utility User Tax receipts make up approximately 11.0% of the General Fund revenue. The City charges Utility User Tax (UUT) on electricity, water, telephone, cable, and natural gas utilities. The current UUT rate is 9% for prepaid wireless and 11% for all other utility categories. Economic fluctuations have less impact on UUTs because users still need electricity, natural gas, water, etc. However, after years of consistent growth, UUT revenues have started to gradually decline over the last five years.

UUT receipts for FY2018/2019 were \$13.17 million, a 5.7% decline from the prior fiscal year. Gas and Water UUT revenues increased slightly, while Electricity revenue declined as solar power and energy conservation initiatives grow, Cable and Telecommunications UUT revenue declined due to land lines on the sharp decline and exponential increase in cell phones with competitive cell phone plans. Prepaid wireless telephone services continue to be a growing trend in the industry. Previously, taxation of these services was uneven and difficult to enforce. In January 2016, legislation took effect to ensure more equal taxation of these services. As wireless users transition to prepaid services, the lesser rate of 9% is applied which impacts overall UUT revenue.

Additional declines in UUT are anticipated in future years as technologies continue to evolve and become more cost-effective, resulting in more people 'cutting the cord' to cable services. This trend is expected to continue to affect future utility consumption trends.

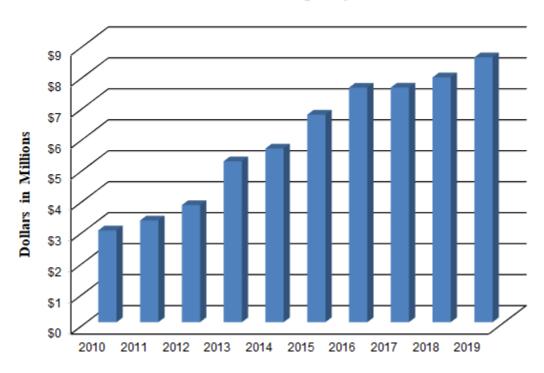

Utility Users Tax

Transient Occupancy Tax

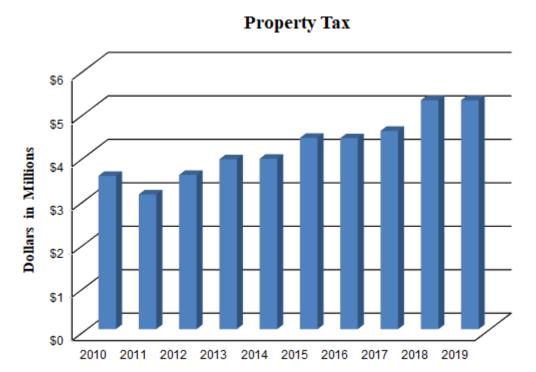

Transient Occupancy Tax is levied on occupied hotel/motel rooms at a rate of 14.0%. FY2018/2019 TOT revenue improved an additional 8.2% over the prior year, increasing to a new record total of \$8.55 million.

Transient Occupancy Tax

Property Tax

Culver City is a "low property tax" city and receives only 10.46% of the 1.0% property tax rate paid by property owners. Consequently, property taxes only account for about 3.5% to 4.5% of General Fund revenues, on average. Continued growth in this revenue is anticipated to continue due to improvements to the City's assessed valuation, which increased by 6.89% over the prior year.

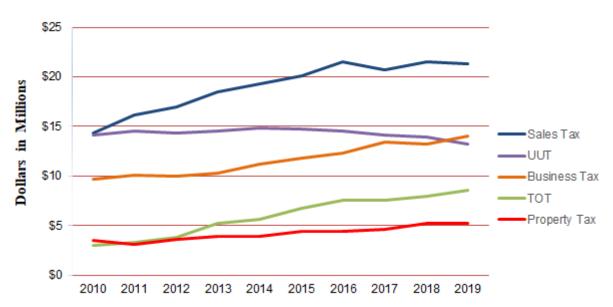

Property Tax receipts ended FY2018/2019 at \$5.27 million, an improvement of 0.01% over prior fiscal year revenues. Additionally, the City received \$4.59 million in former tax increment of the Redevelopment Agency. This funding is from additional property tax increment received when the amount of property tax increment collected in the former Redevelopment Agency project areas exceeds the amount of enforceable obligations due during a 6-month period. Going forward, the amount available will vary widely and, therefore, should be treated as one-time funds until the wind-down of the former Agency is substantially complete.

Total Major Tax Revenues

From the chart below, the correlation between the economy and the City's major tax revenues is evident. The sharp rise in sales tax revenue in FY2012/2013 is due to the inclusion of one-time increases from State Sales Triple-Flip proceeds, which concluded in FY2015/2016. Utility users tax revenue continue to trend downward, in large part due to declines in Telecommunications UUTs from changing technologies. Transient occupancy taxes have demonstrate a steady upward trend. Property taxes have been historically level, with some modest increases in the past years. All other revenue tax revenue sources, however, have shown improvement since FY2010/2011 with growth anticipated to be slow but relatively steady into the future.

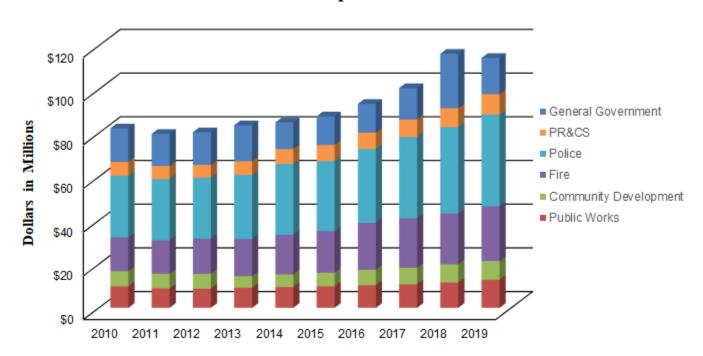

General Fund Expenditures

Over 80% of the City's General Fund expenditures are personnel related costs, with Police and Fire accounting for over 50% of the overall General Fund expenditures. Like most municipalities, the City grapples with rising retirement, medical, and workers' compensation costs on an annual basis.

General Fund Expenditures

General Fund Reserve Percentage

Perhaps the best measure of the City's effectiveness in weathering an economic downturn and building sustained growth for the future is its ability to build a fund reserve. It is a policy of the City to maintain a general operating reserve of, at a minimum, 30% of projected General Fund operating expenditures for each fiscal year (excluding debt service, fund transfers, and encumbered funds). These reserves are designed to be used in the event of a significant financial emergency, as defined in the City's financial policies.

The City has been able to maintain a relatively healthy reserve due in large part to one-time revenues from major developments occurring within the city, and conservative budgeting practices by City Council and staff. While modest amounts of reserves were used to support the budget during the recession, the City has able to bolster its General Fund reserves in each of the last several fiscal years.

As of June 30, 2019, the City has established committed General Fund balances of \$36.2 million for contingencies/emergencies, \$11.1 million for future facility improvements / replacements and \$1.6 million for recreational facility improvements. Beyond these amounts, the City has an additional \$20.7 million in unassigned General Fund balance. Monies in excess of the required reserves are used to fund one-time projects and programs or reduce long-term liabilities, and are most often transferred to the City's capital improvement fund to fund much needed capital projects.

Long-Term Financial Planning

A General Fund Financial Forecast was developed and is presented in conjunction with the mid-year budget review. The Forecast is updated and included in the Adopted Budget. The term of the current Forecast stretches to FY2028/2029, to show the impact of a Measure Y sunset. This is a valuable financial management tool, especially in challenging financial times, to assist the City Council in setting priorities and educate the community on the long term state of the City's finances.

Over the past several years, the City's long-term financial plan has consistently illustrated the mounting fiscal pressures created primarily by increasing costs required to pay down unfunded pension liabilities. With significant increases in required employer contributions for pension being phased in by the California Public Employee's Retirement System, the City continues to take a conservative approach towards new spending while concurrently exploring additional revenue opportunities. Residents also voted in support of an additional quarter-cent sales tax (Measure C) in November 2018. Measure C went into effect April 1, 2019 and is expected to generate an estimated \$5 million per year.

The newly adopted quarter-cent sales taxes (Measure C) in conjunction with the local half-percent sales tax (Measure Y) result in a forecast moving the right direction towards closing the projected fiscal gap. Nonetheless, there are additional policy decisions that must be further deliberated for the City's long-term financial planning. These steps, however, must include the consideration that Measure Y is set to expire automatically expire in March of 2023 if not extended by voters. This year City Council approved the ballot measure to extend and amend the expiration date from March 31, 2023 to March 31. 2033 for inclusion in the special election to be held on March 3, 2020. The City will need to be mindful of what the forecast predicts as it approaches this date, and take necessary actions to ensure continued financial stability.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Culver City for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2018. This was the thirty-fourth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. This report was made possible by the talented and highly dedicated services of the staff of the Finance Department. Each member of the department has our sincere appreciation for the contribution made in the preparation of this report. This report was only possible through perseverance and teamwork.

In closing, without the leadership and guidance of the City Council, the preparation of this report would not have been possible.

Respectfully,

John Nachbar City Manager Anna Jamo

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and the Members of the City Council of the City of Culver City
Culver City, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Culver City, California (the "City") as of and for the year ended June 30, 2019, and the related notes to the basic financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Honorable Mayor and the Members of the City Council of the City of Culver City Culver City, California Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2019, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedules – General Fund and Culver City Housing Authority Special Revenue Fund, the Schedule of Changes in Net Pension Liability and Related Ratios, the Schedule of Contributions – Pension, the Schedules of Changes in OPEB Liability and Related Ratios, and the Schedule of Contributions - OPEB on pages 5 to 19 and 114 to 123 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Introductory Section, Combining and Individual Nonmajor Fund Financial Statements, the Schedules of Revenue, Expenditures, and Changes in Fund Balances – Budget and Actual, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Nonmajor Fund Financial Statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Nonmajor Fund Financial Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

To the Honorable Mayor and the Members of the City Council of the City of Culver City
Culver City, California

Other Reporting Required by Government Auditing Standards

The Rew Group, LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated December 30, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Santa Ana, California December 30, 2019 This page intentionally left blank.

Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2019

As management of the City of Culver City (City), we offer readers of the City's basic financial statements this overview and analysis of the financial activities of the City for the year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our transmittal letter, which is found on pages v-xviii of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The City's government-wide assets and deferred outflows of resources exceeded its liabilities and deferred inflows at the close of the 2018-19 fiscal year by \$144.1 million (*net position*). Of this amount, \$247.9 million is net investment in capital assets, \$67.2 million is restricted and (\$171.0) million is unrestricted. The City's unrestricted net position was negatively impacted with the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which required the City to record its unfunded pension liabilities for pension plans and other postemployment benefits (OPEB) in which it participates. More information on the City's pension and OPEB plans can be found in Notes 10 and 11 on pages 90 102 of this report.
- The City's total net position, including all activities, increased by \$14.7 million (\$5.6 million current year operations and \$9.1 million prior period adjustments) in 2018-19 fiscal year. Of this increase in net position, \$16.2 million (\$6.2 million current year operations and \$10 million prior period adjustments) was from governmental activities and a \$1.49 million decrease (decreases of \$0.54 million current year operations and \$0.95 million prior period adjustments) from business-type activities.
- As of June 30, 2019, the City's governmental funds reported combined ending fund balances of \$184.6 million. Approximately 10.1% of the current year amount or \$18.7 million is available for spending at the City's discretion.
- At the end of the 2018-19 fiscal year, unrestricted fund balance (the total of committed, assigned and unassigned components of fund balance) for the General Fund was \$69.7 million, or approximately 60.9% of total General Fund expenditures of \$114.4 million. Additional information on the City's General Fund balances is located in Note 14.

OVERVIEW OF THE FINANCIAL STATEMENTS

The City's basic financial statements are comprised of three components: 1) Government-Wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. Each of these sections is discussed below. This report also contains other required and supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The *Government-Wide Financial Statements* are designed to present financial information about the City as a whole in a manner similar to the private sector, including the use of accrual-based accounting to recognize its revenues and expenses. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely primarily on user fees and charges to fund their operations. Governmental activities include those traditionally associated with local government, such as public safety (fire and police), community development, public works, parks and recreation, and general government (administrative) functions. Business-type activities include the City's utility operations (Sanitation and Wastewater), Municipal Bus Lines and Municipal Fiber Network.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

The *Statement of Net Position* presents information on all of the City's assets, including capital assets, and all related current liabilities and long-term obligations. The difference between total assets and total liabilities is presented as *net position*, which serves as a measure of the financial health of the City. Over time, an increase in net position generally indicates that the financial health of the City is improving.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. Decreases in net position are presented as "Expenses"; increases in net position are presented as "Revenues". Revenues directly attributable to a particular function within the City are presented as "Program Revenues". Tax revenues, including those restricted to a particular program function, are reported as "General Revenues" unless specifically required to be reported as program revenues (i.e. gas and transportation taxes).

All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (such as, revenues pertaining to uncollected taxes, or expenses pertaining to earned, but unused, vacation and sick leave).

The government-wide financial statements include not only the City of Culver City, California (known as the primary government), but also three legally separate component units: The Parking Authority, the Housing Authority, and the Public Financing Authority. The governing board of each of these entities is comprised entirely of members of the City Council, and their financial activity has been included as an integral part of the primary government. The Successor Agency is reported as a Private Purpose Trust Fund in the Fiduciary Fund statements.

The government-wide financial statements are located on pages 24-27 of this report.

Fund Financial Statements

The City, like other state and local governments, uses fund accounting for recording its financial activities. In general, fund accounting provides a mechanism to separately account for a variety of different funding sources and enables the City to demonstrate compliance with legal and/or contractual requirements that may be associated with these funds. Thus, the accompanying fund financial statements present individual funds organized into one of three categories: Governmental, Proprietary, and Fiduciary Funds. Note that the fund financial statements only present information on the most significant (i.e. "major") funds on the face of the statements. Nonmajor funds are grouped and presented in total on the face of the statements. In addition, the fund financial statements include a schedule that reconciles the fund financial statements to the government-wide financial statements. This is designed to explain the differences created by the integrated approach to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - Most of the City's basic services are reported in governmental funds. Governmental funds include the General Fund, Special Revenue, Capital Projects, and Debt Service funds. In the fund financial statements, all governmental fund types are reported using the modified accrual basis of accounting, whereby revenues are generally recognized when measurable and available to finance current operating costs, and expenditures are recognized when the related liability is incurred. In addition, the focus is on inflow (revenues) and outflow (expenditures) of the current period. As such, the balance sheets of governmental funds are intended to present only short-term assets and liabilities.

The fund financial statements include separate columns, by fund type, for all "major" governmental funds of the City. All "nonmajor" governmental funds are consolidated into a single column labeled "other governmental funds." The details of these funds are included in the Combining and Individual Fund Statements and schedules located in the supplementary information section of this report on pages 131-168.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Since the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing this comparison, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances, provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The City adopts an annual appropriated budget for its funds. A budgetary comparison is provided for all of the City's Governmental Funds to demonstrate compliance with this budget.

Proprietary funds – Proprietary funds are used to account for services provided to external customers or other City departments and funds that are primarily funded from user fees and charges. Proprietary funds use the accrual basis of accounting and measure the balance and change in *total economic* resources. Accordingly, balance sheets of proprietary funds include all assets and liabilities, including long-term receivables, capital assets, and long-term liabilities. The basis of accounting and measurement focus used to prepare proprietary fund statements is the same that is used to prepare the government-wide statements. Thus, proprietary fund statements provide the same, but more detailed, information about these funds, which are included in the "Business-Type Activity" column of the government-wide statements.

The City maintains two different types of proprietary funds: Enterprise and Internal Service.

- *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Refuse Disposal, Municipal Bus Lines, Sewer, and Municipal Fiber Network Funds, all of which are considered major funds.
- *Internal Service funds* are used by the City to account for its intra-city services: equipment replacement, fleet maintenance, risk management, and central stores.

Because internal service funds predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* in the supplementary information section.

Fiduciary funds are used to account for resources held by the City as trustee on behalf of other agencies or individuals. Fiduciary funds are *not* presented in the accompanying government-wide financial statements since the resources of those funds are *not* available to support the City's programs. The basis of accounting used for the fiduciary funds is similar to what is used for the proprietary funds. The fiduciary funds financial statements are located in the basic financial statements section of this report.

The City uses private-purpose trust funds to account for the activities of the Successor Agency to the Culver City Redevelopment Agency. Additionally, two small agency funds are maintained to account for assets and liabilities where the City serves as custodian.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and are located on pages 57 through 111.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning budgetary comparison schedules for the General Fund and major special revenue funds in the Required Supplementary Information section of this report and are located on pages 124 through 125.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

The combining statements, referred to earlier in connection with non-major governmental funds, internal service funds, and fiduciary funds are presented following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position

As noted earlier, net position may serve as a useful indicator of a government's financial position over time. As shown in the table below, the City's assets and deferred outflows of resources exceed liabilities and deferred inflows of resources by \$144.1 million at June 30, 2019.

Approximately 172.0% of the City's net position is attributable to its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens and consequently, these assets are *not* available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets alone may not be used to liquidate these liabilities.

Approximately 46.7% of the City's net position is subject to restrictions imposed by external parties, and their use is determined by those restrictions and contractual agreements. The remaining amount may be used by the City to meet ongoing operations, subject to applicable federal and state laws and regulations. The significant liabilities recorded for pensions and OPEB with the implementation of GASB 68 and 75 result in a negative unrestricted net position of the City of (\$171.0) million.

City of Culver City's Net Position As of June 30, 2019 and 2018 (In Thousands)

| | Governmental Activities | | Business-Type Activities | | Total | |
|--------------------------------------|--------------------------------|------------|---------------------------------|-----------|------------|------------|

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Statement of Activities

As discussed earlier, the Statement of Net Position provides a measure of the financial health of an entity at a specific date in time (i.e. year-end). In contrast, the Statement of Activities provides details of how net position changed from the prior fiscal year. Generally, it indicates whether the financial health of the City as a whole is better at June 30, 2019, in relation to a year earlier. For the fiscal year ended June 30, 2019, total net position increased by \$14.7 million (\$5.6 million current year operations and \$9.1 million prior period adjustments).

The following table summarizes the Statement of Activities for Governmental Activities and Business-Type Activities for the fiscal year ended June 30, 2019, with comparative totals for the fiscal year ended June 30, 2018.

City of Culver City's Changes in Net Position As of June 30, 2019 and 2018 (In Thousands)

| | Governmental Activities | | Business-Type Activities | | Total | |

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Governmental Activities

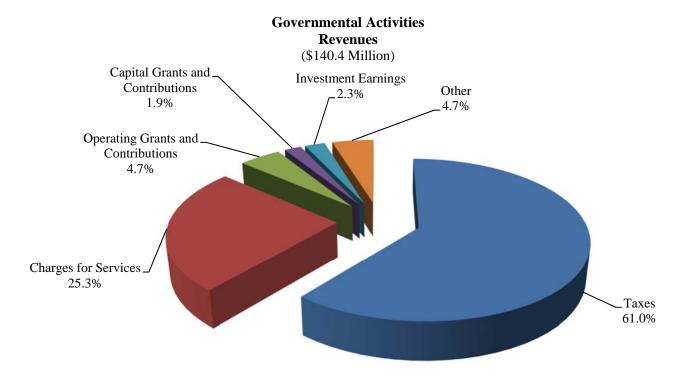

The City's net position from governmental activities increased approximately \$16.2 million (\$6.2 million current year operations and \$10.0 million prior period adjustments) accounting for 110.2% of the total increase in the net position of the City. Key elements of this reduction are a combination of factors highlighted below.

Revenue Highlights

Total revenues of governmental activities were \$140.4 million. The largest component of total revenue is taxes at \$85.7 million, making up 61.0% of total revenues. This is consistent with the nature and purpose of governmental funds, particularly in the General Fund, where programs are largely supported by general taxes. The highest tax revenues received by the General Fund include sales tax (\$32.4 million), business license tax (\$14.0 million), property tax (\$13.5 million), utility users tax (\$13.2 million), and transient occupancy tax (\$8.6 million), and. Some of the key changes in revenues are:

- Sales tax increased by \$1.2 million, primarily due to rate increase and economic growth.
- Business license tax increased by \$0.8 million and transit occupancy tax increased by \$0.6 million, due to the improving economy and business growth.

The governmental activities' chart below illustrates operating revenues by source. Sales, business, property, utility users, transient occupancy, and other taxes are general revenues used to support overall government functions. These sources account for approximately \$85.7 million or 61.0% of total governmental revenue. Operating and capital grants make up 6.6% of revenues while charges for services amount to 25.3% of total governmental revenues.

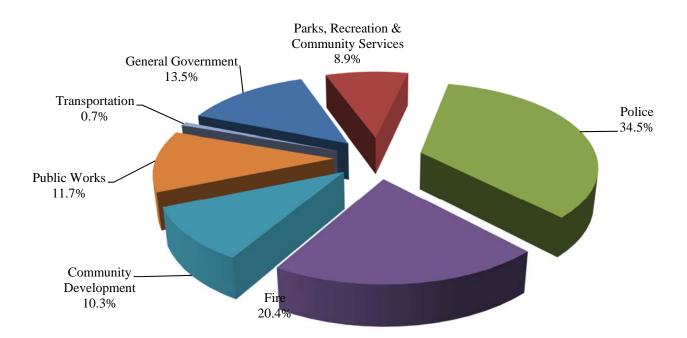

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Expense Highlights

Functional expenses for the year totaled approximately \$132.8 million in the governmental funds, a decrease of \$6.2 million over the prior year, of which \$10 million, or 162.1% of the decrease, attributable to General Government services. The decrease in General Government services was due to the restatement in General Fund to correct cash and investments for \$10 million that was set aside for Section 115 Trust but was expensed in the 2017-18 fiscal year (Note 17). Public Safety activities consumed approximately \$72.9 million (54.9%) of the total expenses in the governmental activities. Almost all public safety costs are funded from general revenues, primarily taxes. Expenses for Public Works totaled \$15.6 million, Community Development \$13.7 million, and Parks, Recreation, and Community Services \$11.8 million. General Government Expenses (including City Council, City Manager, City Clerk, Information Technology, Finance, Human Resources and City Attorney) and Transportation, consumed a total of \$18.8 million (14.2%).

Governmental Activities Expenses

(\$132.3 Million)

Business-Type Activities

The City's business-type activities realized a \$1.49 million decrease (decreases of \$0.54 million current year operations and \$0.95 million prior period adjustments) in net position, largely resulting from reduction in operating and capital grants.

The City's Municipal Bus Lines is the largest business-type operation, with operating and capital contributions and grants from federal and county sources mainly funding its operations, as well as fare revenues. Refuse Disposal is second largest, followed by Sewer Enterprise, with fees for services mainly funding the two utilities.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

In November 2015, the City Council approved a new Municipal Fiber Network enterprise fund. Funding for this project was appropriated through a loan from the General Fund to design and construct open access network where Internet Service Providers (ISPs) will utilize the City's fiber infrastructure to service the business community. At the end of the 2018-19 fiscal year, net position decreased by \$0.89 million. The construction for Municipal Fiber Network was completed for the Municipal Fiber Network (Culver Connect) backbone and construction was initiated for network laterals. The Municipal Fiber Network has begun generating revenues in 2018-19 fiscal year.

The chart below shows a comparison of program revenues to expenses and to prior year for each of the City's business-type activities.

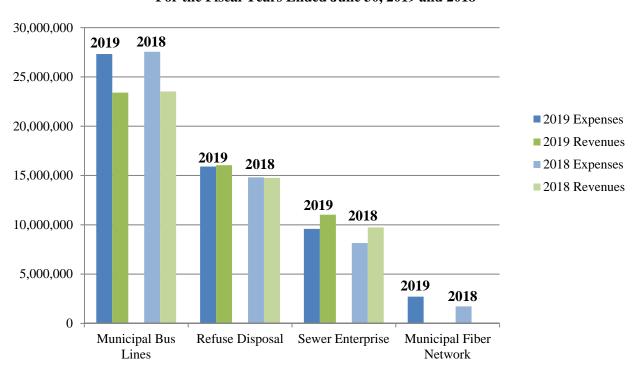

Revenue Highlights

Total program revenues as of June 30, 2019, were \$50.5 million which increased by \$2.49 million from the prior fiscal year. The change is primarily attributed to \$1.28 million increase in Refuse Disposal service charges with a 7% increase in rates and a large service increase in collecting construction materials and \$1.29 million increase in Sewer Enterprise user's service charges with a 3.6% increase in rates.

Expense Highlights

Refuse Disposal expenses increased by \$1.09 million, or 7.39%, largely due to an increase in processing fees of materials at all facilities including the recycling facility which had the largest increase. Sewer Enterprise expenses increased by \$1.44 million, or 17.7%, primarily due to the payments to the City of Los Angeles for wastewater system operation and maintenance at Hyperion, capital improvements for conveyance to Hyperion, and the payments to the County of Los Angeles for inspection, permit and plan check fees.

Business-Type Activities Expenses and Program Revenues For the Fiscal Years Ended June 30, 2019 and 2018

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

GOVERNMENT FUNDS FINANCIAL ANALYSIS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2019, the City's governmental funds reported a combined ending fund balance of \$184.6 million, an increase of \$12.2 million (\$2.2 million current year operations and \$10 million prior period adjustments) in comparison with the prior year. Increased revenues of \$2.02 million (\$2.52 million in taxes, \$0.6 million in licenses and permits, (\$0.4) million in fines and forfeitures, (\$2.77) million in intergovernmental, (\$1.99) million in charges for services, and \$4.06 million in investment earnings and miscellaneous) were added by \$6.94 million in decreased expenditures (decreases of \$8.4 million in general government, \$5.3 million in capital outlay and \$0.04 million in transportation, and increases of \$4.01 million in police and fire, \$0.68 million in parks, recreation, and community services, \$1.39 million in public works, and \$0.72 million in community development) as compared to the prior fiscal year. Of the total \$184.8 million fund balance, \$15.2 million was non-spendable, \$81.3 million was restricted, \$69.4 million was committed, \$0.1 million was assigned, and \$18.7 million was unassigned.

The following is a summary of significant changes to fund balance in the major governmental funds.

General Fund

The General Fund is the City's chief operating fund. It showed an increase of \$14.8 million (\$4.8 million current year operations and \$10 million prior period adjustments) in fund balance for the 2018-19 fiscal year with an \$95.6 million total fund balance at June 30, 2019. The increase was due to the restatement in General Fund to correct cash and investments for \$10 million that was set aside for Section 115 Trust but was mistakenly expensed in the 2017-18 fiscal year (Note 17) as well as the savings of personnel related costs.

Culver City Housing Authority Fund

With the dissolution of the Redevelopment Agency, the Culver City Housing Authority was formed to serve as the Successor Housing entity. All former Low/Moderate Income Housing assets and liabilities were transferred to the Housing Authority. During the 2018-19 fiscal year, project expenditures outpaced revenues and transfers by \$1.07 million for this fund.

Capital Improvement and Acquisition

This fund is used to account for former capital projects that are not otherwise funded by a special revenue fund or other specifically identified source of funding. The General Fund is the main contributor to projects in this fund. Project expenditures outpaced revenues and transfers by \$0.53 million for this fund.

Proprietary Funds

Unlike governmental funds, proprietary funds use the accrual basis of accounting for financial statement purposes. Accordingly, information reported for the individual fund statements is very similar to that presented as Business-Type Activities in the government-wide statements. Government-wide reporting requires the inclusion of activities of the City's internal service funds related to proprietary fund activities in the Business-Type Activities. Therefore, the following analysis is very similar to that presented for Business-Type Activities.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

The net position of the Refuse Disposal, Municipal Bus Lines, Sewer Enterprise and Municipal Fiber Network funds were (\$5.22) million, \$21.32 million, \$44.48 million, and (\$3.92) million respectively. Total net position of these funds decreased by \$1.49 million (decreases of \$0.54 million current year operations and \$0.95 million prior period adjustments) in the year ended June 30, 2019. Within this total, Sewer Enterprise fund's net position improved by \$1.96 million; however, it continues to have a negative net position of (\$5.22) million due mostly to the recording of \$11 million in other post-employment benefits (OPEB) and pension liabilities.

The Internal Service Funds net position decreased by \$2.41 million from the prior year due to operations. The Risk Management Fund incurred the biggest decrease of \$2.2 million due to a large increase in claims and settlements. Any deficits from fiscal year 2018-19 will be recovered through allocations in fiscal year 2019-20, as approved by Council.

GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund is the main operating fund of the City. Its revenues are primarily derived from taxes and charges for services, which are used to pay for the traditional services provided by local government - public safety, parks and recreation, community development (building and planning), and public works.

Revenues

SUMMARY OF GENERAL FUND REVENUES BUDGET AND ACTUAL Fiscal Year Ended June 30, 2019

| | Budgeted Amounts | | | Actual | Variance from | | | |
|--------------------------|------------------|-------------|-----|-------------|---------------|-------------|----|-------------|
| | | Original | | Final | nal An | | Fi | nal Budget |
| Revenues: | | | | | | | | |
| Taxes | \$ | 80,322,872 | \$ | 81,391,868 | \$ | 85,689,848 | \$ | 4,297,980 |
| Licenses and permits | | 5,536,600 | | 6,237,012 | | 7,042,213 | | 805,201 |
| Fines and forfeitures | | 5,644,500 | | 5,675,441 | | 5,468,942 | | (206,499) |
| Intergovernmental | | 5,347,437 | | 5,360,712 | | 5,440,406 | | 79,694 |
| Charges for services | | 11,770,798 | | 12,869,919 | | 11,818,571 | | (1,051,348) |
| Investment earnings | | 813,000 | | 898,000 | | 3,218,803 | | 2,320,803 |
| Miscellaneous | | 276,200 | | 788,275 | | 1,025,764 | | 237,489 |
| Total revenues | | 109,711,407 | | 113,221,227 | | 119,704,547 | | 6,483,320 |
| Other Financing Sources: | | | | | | | | |
| Transfers in | | 2,733,984 | | 2,733,984 | | 2,733,983 | | (1) |
| Total other financing | | | | | | | | |
| sources | | 2,733,984 | | 2,733,984 | | 2,733,983 | | (1) |
| Total Revenues | \$1 1 | 12,445,391 | \$1 | 15,955,211 | \$1 | 22,438,530 | \$ | 6,483,319 |

The amended General Fund revenue budget for the 2018-19 fiscal year reflects amendments that were approved by the City Council during the year. The most significant amendments included increases to taxes and charges for services.

As shown on the table above, actual revenues totaled \$122.4 million, ahead of the amended budget by \$6.48 million. Taxes exceeded the amended budget by \$4.3 million. This was due to several factors including: gradual improvement in the local economy, additional property tax increment revenues to the general fund as a result of the dissolution of redevelopment, additional business tax and real property transfer tax revenues. Investment earnings exceeded the amended budget by \$2.3 million. This was primarily due to the investment earnings and gains on the tax exempt Section 115 Trust and interest income on the Fiber Network working capital loan.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Expenditures

SUMMARY OF GENERAL FUND EXPENDITURES BUDGET AND ACTUAL Fiscal Year Ended June 30, 2019

| | Budgeted | Amounts | Actual | Variance from | | |
|-------------------------|---------------|---------------|---------------|----------------|--|--|
| | Original | Final | Amounts | Final Budget | | |
| Expenditures: | | | | | | |
| General government | \$ 15,128,074 | \$ 15,359,837 | \$ 16,573,263 | \$ (1,213,426) | | |
| Parks, recreation and | | | | | | |
| community services | 9,610,011 | 10,063,147 | 9,364,497 | 698,650 | | |
| Police | 42,544,374 | 43,437,216 | 41,951,512 | 1,485,704 | | |
| Fire | 24,437,959 | 24,979,736 | 25,075,958 | (96,222) | | |
| Community development | 11,758,481 | 14,405,596 | 8,587,471 | 5,818,125 | | |
| Public works | 13,224,853 | 14,169,603 | 12,848,402 | 1,321,201 | | |
| Total expenditures | 116,703,752 | 122,415,135 | 114,401,103 | 8,014,032 | | |
| Other Financing (Uses): | | | | | | |
| Transfers out | (2,830,000) | (3,253,500) | (3,231,785) | 21,715 | | |
| Total other financing | | | | | | |
| (uses) | (2,830,000) | (3,253,500) | (3,231,785) | 21,715 | | |
| Total Expenditures | \$113,873,752 | \$119,161,635 | \$111,169,318 | \$ 7,992,317 | | |

The amended General Fund expenditure budget for the 2018-19 fiscal year reflects amendments approved by the City Council during the year. The amended budget also reflects appropriations carried over from the prior year related to outstanding encumbrances as of June 30, 2018.

The variance of \$1.2 million in General Government reflects the write-off of the annual Fiber Network construction loan payments for the 2018-19 fiscal years of \$1.4 million as approved by the City Council during the year for which the corresponding budget adjustments were not made. Each department ended the year within their respective spending authority. Police and Public Works expenditures were significantly under the amended budget due to position vacancies. The difference of \$0.1 million in Fire reflects the savings of personnel related costs.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City owns hundreds of millions of dollars' worth of capital assets that require ongoing maintenance, improvement and renovation. As a result, the City as a whole undertakes millions of dollars in capital improvement and construction projects each year.

The capital improvement projects undertaken in those operations in the Governmental Activities category typically include improvements to the City's infrastructure (roads, curbs, storm drains, bridges, sidewalks, gutters, etc.) and improvements to City public facilities, such as parks, restrooms, community facilities, and playgrounds. Starting in 2004, governmental funds have been required to capitalize and report the costs of acquiring or constructing infrastructure assets acquired or constructed after 1982. Where information was readily available, or if a value could be reasonably estimated, the City capitalized infrastructure assets acquired or constructed prior to 1982.

Summary of Capital Assets (Net) Fiscal Year Ended June 30, 2019 (In Thousands)

| | Governme | ntal Activities | Business-Ty | ype Activities | Total | | | |
|--------------------------|------------|-----------------|-------------|----------------|------------|------------|--|--|
| | 2019 | 2018 | 2019 | 2018 | 2019 | 2018 | | |
| Land | \$ 21,539 | \$ 21,363 | \$ 3,083 | \$ 3,083 | \$ 24,622 | \$ 24,445 | | |

| Improvements | 15,096 | 11,730 | 6,949 | 7,700 | 22,045 | 19,430 | | |
| Machinery and equipment | 12,656 | 10,928 | 17,355 | 20,029 | 30,011 | 30,957 | | |
| Furniture and fixtures | - | - | 25 | 31 | 25 | 31 | | |
| Infrastructure | 52,705 | 51,732 | 17,673 | 18,032 | 70,378 | 69,764 | | |
| Investment in Hyperion | - | - | 9,342 | 10,007 | 9,342 | 10,007 | | |
| Construction in progress | 29,291 | 21,801 | 16,555 | 11,256 | 45,846 | 33,057 | | |
| Total | \$ 174,898 | \$ 162,634 | \$ 86,210 | \$ 85,927 | \$ 261,108 | \$ 248,560 | | |

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2019, amounts to \$261.1 million (net of accumulated depreciation). This investment in capital assets includes land, water rights, buildings and related systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges.

Capital asset additions included vehicle replacements, street repair and replacement, and sewer system improvements in the current year. Depreciation expenses in the Governmental and Business-Type activities totaled \$6.9 million and \$5.2 million, respectively.

Additional information is available in Note 6 of the Notes to the Basic Financial Statements.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Long-Term Obligations

At the end of the 2018-19 fiscal year, the City had total net long-term outstanding obligations of \$43 million, a decrease of \$1.37 million over the prior fiscal year.

Summary of Long-Term Liabilities Fiscal Year Ended June 30, 2019 (In Thousands)

| | Governmental Activities | | Business-Type Activities | | | Total | | | | | |
|--|-------------------------|--------|---------------------------------|----|--------|-------|--------|----|--------|----|--------|

Additional information is available in Note 7 of the Notes to the Basic Financial Statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Economy

The City of Culver City's economy has shown continued improvements, similar to other cities throughout the region. The General Fund, the City's primary operating fund from which the traditional services associated with local government are provided (police, fire, recreation, engineering, etc.) is particularly affected by economic downturns. Key revenues, such as sales tax, business tax, and building permits realized significant declines from 2008 through 2010. Despite these declines, the City endeavored to keep General Fund revenues and expenditures in balance through a combination of cuts to spending, labor concessions, and one-time solutions that included the modest use of reserves.

As the economy has improved over the last several years, the city has improved its financial position. However, additional fiscal concerns are on the near horizon. The City expects significant increases in pension costs to phase in over the next three to four fiscal years, based on information from the California Public Employees' Retirement System, which is anticipated to drastically impact the City's financial forecast.

The current economic outlook is more favorable than in recent years; but the City continues to take a conservative approach to future projections.

Budget Outlook

Culver City prides itself on the outstanding quality of services it provides to the community and has taken all efforts to preserve services during these economically challenging times. Over the course of the past several years, numerous positions in the General Fund have been eliminated. This was accomplished without layoffs by eliminating position vacated through regular turnover or retirement incentives. Active and retiree health benefits were reduced and converted to defined benefit. July of 2014 marked the first cost-of-living adjustments for non-safety employees for several years. On the revenue side, there now continues to be slow but steady growth in the Culver City economy. Business tax receipts were among the highest in the City's history, along with significant increases in property taxes and sales taxes. Building activity has also experienced continued growth in the last five years.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Despite the improving economy and efforts to reduce costs, the City's financial forecast still showed operating deficits when factoring in necessary funding for rising pension costs and appropriately pre-funding retiree healthcare costs. Exacerbating this issue was the dissolution of the Redevelopment Agency, which eliminated significant administrative reimbursements to the General Fund. Understanding that further meaningful expenditure cuts would radically alter the ability of the City to deliver the services valued by the community, the City Council turned to its voters to consider raising local taxes. First, a 2% increase to the Transient Occupancy Tax (Measure X) was approved on April 10, 2012. The approval of this measure increased this tax rate from 12% to 14%, resulting in approximately \$1.0 million in additional revenue. Second, a one-half cent local sales tax (Measure Y) was approved on November 6, 2012, becoming effective on April 1, 2013 and an additional quarter-cent sales tax (Measure C) was approved in November 6, 2018, which went into effect beginning April 1, 2019.

The Measure Y local sales tax results in approximately \$9.5 million in additional revenue, which should grow in step with anticipated future sales tax receipts. However, due to a sunset provision, this tax will expire on March 31, 2023 if not extended by the voters. This year City Council approved a ballot measure to extend and amend the expiration date from March 31, 2023 to March 31. 2033 for inclusion in the special election to be held on March 3, 2020. Without those funds, the City anticipates the following ongoing fiscal challenges will threaten the City's ability to provide adequate levels of service to its residents:

- 1. Total General Fund Appropriations are projected to exceed General Fund Revenue estimates over the next 10 years.
 - a. In the FY 2019/2020 Adopted Budget, even with the one-half cent sales tax in place, the General Fund Budgeted Appropriations exceeded General Fund Revenue Estimates by \$7.3M. If the one-half cent sales tax sunsets, the budget deficit will increase by \$9M and the City will be forced to pursue alternate revenue strategies.
 - b. The City's 10-year financial forecast demonstrates that the General Fund will no longer meet the General Fund Reserve requirement by FY 2023/2024 and if the one-half cent sales tax measure sunsets in FY 2022/2023, the General Fund Reserves will be totally depleted three years after the sunset.
- 2. Increasing retirement and pension costs related to rates charged by CalPERS have a significant impact on the General Fund's increasing expenditures.
 - a. PERS costs are expected to rise from \$23,952,000 in FY 2019/2020 to \$42,317,000 in FY2029/2030, which is an increase of 77% during this time period.
- 3. There are additional budget needs that have not been included in the financial forecast which include:
 - a. Increased maintenance and capital improvement projects for City infrastructure (streets, roads, pavements, traffic safety projects, city buildings, etc.).
 - i. In a recent study, consultants at Faithful + Gould assessed 25 City-owned structures located across the City and found a total of \$38M of necessary capital improvements over a 10-year period. Out of the \$38M, \$20M in improvements has been identified as immediate and \$8.5M were identified as Priority 1 Life/Public Safety items.
 - b. Capital and maintenance expenditures to support updating network infrastructure, cloud-based software deployments and replacement of end-of-life hardware which are critical to supporting secure and reliable operations.
 - i. The Information Technology (IT) Department administers and manages the network and technical infrastructure for the City. Departments citywide are relying more on emerging technologies that streamline and facilitate efficient operations. Continued investments that support the city's technical infrastructure are essential and reduces the City's risk as it relates to cybersecurity.

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2019

Another significant change to the state and local financial landscape is the recently enacted Public Employees' Pension Reform Act ("PEPRA") of 2013, led by the Governor and overwhelmingly supported by the legislature. The City had already been proactive in pension reform and implemented many provisions that were included in PEPRA over the past several fiscal years. Employees currently either contribute their full pension costs or will do so by the end of their current Memorandum of Understanding. New employees are subject to a two tier plan. While PEPRA has no immediate impact to current pension costs, the law will slowly reduce pension costs of virtually all public employers over time as new employees hired after December 31, 2012 will be subject to a more moderate retirement plan. In the meantime, like all public agencies, the City of Culver City still has an underfunded pension plan for existing employees to address.

Despite the City's sound management and disciplined control of its financial health, the City's ability to sustain local services is seriously threatened by rising pension costs and the threat of losing 7%, or \$9.8 million, of its General Fund Sales Tax Revenues. In addition to these fiscal difficulties, the City seeks to continue to provide the same level of essential City services for the benefit of its residents, which services include police, fire, street maintenance, traffic improvements, emergency preparedness, maintenance of parks and recreation areas, all of which are deemed very important by an overwhelming majority of City residents, as indicated by a recent survey. Remaining financially sustainable will continue to be a responsibility of City leadership. Living within our means; maintaining healthy reserves; safeguarding our current quality of life and standard of living without sacrificing the future; creating a healthier and "greener" economy; prudently investing in long-term facilities and assets; partnering with our community to work together toward common goals; and making wise decisions despite political pressures to defer or deny them – all these are vital to working toward "sustainable prosperity" for Culver City.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Culver City's finances for all those with an interest in the government's finances. GOVERNMENTAL FUND FINANCIAL STATEMENTS

General Fund - This is the primary operating fund of the City. It accounts for all activities of the general government, except those required to be accounted for in another fund.

Culver City Housing Authority Fund - This fund is used to account for the former Low/Moderate Income Housing Funds transferred to the City under the 2011 Cooperation and Implementation agreements. It is also anticipated that future funding will be provided from the Successor Agency from the past redevelopment agency repayment obligations. These funds are restricted to be used for qualified low/moderate income housing projects identified in the Agreement.

Capital Improvement and Acquisition Fund - To account for capital projects that are not otherwise funded by a special revenue fund or other specifically identified by the sources of funding. Project funding is mainly from general revenues allocated by action of the City Council.

City of Culver City Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position June 30, 2019

| Total Fund Balances - Total Governmental Funds | \$ 184,645,313 |
|--|----------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because: | |
| Capital assets used in governmental activities are not financial resources and are not reported in the funds: | |
| Capital assets, not being depreciated (net of \$2,221,762 reported in Internal Service Funds) | 48,607,940 |
| Capital assets, depreciable (net of \$28,037,104 reported in Internal Service Funds) | 208,800,128 |
| Less accumulated depreciation (net of \$(18,348,841) reported in Internal Service Funds) | (94,420,275) |
| Long-term liabilities and related deferred outflows of resources and deferred inflows of resources were not due and payable in the current period. Therefore, they were not reported in the Governmental Funds' Balance Sheet: | |
| Compensated absences (net of \$863,862 reported in Internal Service Funds) | (11,316,876) |
| Net pension liability (net of \$9,668,116 reported in Internal Service Funds) | (196,271,058) |
| Pension related deferred outflows of resources (net of \$1,470,996 reported in Internal Service Funds) | 33,233,035 |
| Pension related deferred inflows of resources (net of \$262,193 reported in Internal Service Funds) | (2,444,010) |
| Net OPEB liability (net of \$3,086,038 reported in Internal Service Funds) | (70,871,527) |
| OPEB related deferred outflows of resources (net of \$173,715 reported in Internal Service Funds) | 3,989,381 |
| OPEB related deferred inflows of resources (net of \$395,109 reported in Internal Service Funds) | (9,073,773) |
| Internal service funds are used by management to charge the costs of equipment replacement, fleet management, risk management, and central store to individual funds. The assets and liabilities of the internal service funds are included in the | (0.004.7.40) |
| governmental activities in the Government-Wide Statement of Net Position. | (9,386,569) |
| Revenues earned but not available to pay for current expenditures for governmental funds are unavailable. | 1,974,791 |
| Net Position of Governmental Activities | \$ 87,466,500 |

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Government-Wide Statement of Activities and Changes in Net Position For the Year Ended June 30, 2019

| Net Change in Fund Balances - Total Governmental Funds | \$ 2,235,367 |
|--|--------------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because: | |
| Acquisition of capital assets was reported as expenditures in the governmental funds. However, in the Government-Wide Statement of Activities, the cost of those assets was allocated over the estimated useful lives as depreciation expense. The following was the amount of capital assets recorded in the current period: | |
| Capital outlay (\$191,774 of capital outlay expenditures were for current public works expenditures for repairs and maintenance and therefore, were not capitalized), net of \$3,906,698 reported in Internal Service Funds. | 15,282,518 |
| Depreciation expense on capital assets was reported in the Government-Wide Statement of Activities, but they did not require the use of current financial resources. Therefore, depreciation expense was not reported as an expenditure in the governmental funds. (Net of \$1,561,435 reported in Internal Service Funds.) | (5,323,598) |
| Long-term compensated absences expense was reported in the Government-Wide Statement of Activities, but it did not require the use of current financial resources. Therefore, the increase in long-term compensated absences was not reported as an expenditure in the governmental funds. (Net of \$89,149 reported in Internal Service Funds.) | 565,843 |
| Other postemployment benefits and pension expenses were reported in the Government-Wide Statement of Activities, but they did not require the use of current financial resources. Therefore, the increase or decrease in other postemployment benefits liability and net pension liabilities were not reported as an expenditure or (credit) in the governmental funds. Other postemployment benefit expenses Pension expense (credit) | 5,576,121 (9,840,102) |
| Internal service funds were used by management to charge the costs of certain activities, such as equipment and fleet management, insurance, and central stores to individual funds. The net revenue of the internal service funds was reported with governmental activities. | (2,406,117) |
| Unavailable revenue is not recognized as revenue in the governmental funds since the revenue is not available to fund expenditures of the current year. | 78,616 |
| Change in Net Position of Governmental Activities | \$ 6,168,648 |

PROPRIETARY FUND FINANCIAL STATEMENTS

This page intentionally left blank.

PROPRIETARY FUNDS

Enterprise Funds are used to account and report activities for which fees are charges to external users for goods and/or services.

Enterprise Funds include:

Refuse Disposal Fund - This fund is used to account for the operation and the capital assets of the City's refuse disposal service.

Municipal Bus Lines Fund - This fund is used to account for the operation and the capital assets of the City's transportation system.

Sewer Enterprise Fund - This fund is used to account for the maintenance and operation, and the capital assets of the City's sewage disposal service.

Municipal Fiber Network Fund- This fund is used to account for the installation of open access network where Internet Service Providers ("ISP") will utilize the City's fiber infrastructure to service the business community.

FIDUCIARY FUND FINANCIAL STATEMENTS

Successor Agency to the Culver City Redevelopment Agency Private Purpose Trust Fund - To account for the winding down of the former Redevelopment Agency, including disposition of real properties held by the Agency and payment of enforceable obligations. Reflected in the Basic Financial Statements section.

Agency Funds - To account for assets held by the City as an agent for individuals, private organizations, other government units, and/or other funds. An agency fund such as Treasurer's Trust is used to account for refundable deposits entrusted with the City Treasurer/Finance department. The Culver City Revitalization Corp is a non-profit corporation created to allow certain funding to be expended on improvements to out-of-city properties adjacent to or abutting in-city properties in Component Area No. 2 of the former Culver City Redevelopment Project Area. The agency funds are purely custodial in nature (assets equal liabilities) and thus, does not involve measurement of results of operations.

City of Culver City Notes to the Basic Financial Statements For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies

The basic financial statements of the City of Culver City, California (the "City") have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Reporting Entity

The City of Culver City was incorporated in 1917 and adopted its current City Charter in 1947. The City Charter establishes the form of government, states the powers and duties of the City Council, and establishes the City's various executive offices. The City operates under a City Council/City Manager form of government. Under this system, the people elect a City Council of five citizens who serve a term of four years and who in turn appoint a City Manager, Police Chief, Fire Chief and City Attorney. The City provides the following services as authorized in its charter: public safety (police and fire), planning, public works, human services, bus lines, refuse collection, sewers, and community development.

In evaluating how to define the City for financial reporting purposes, management has considered all potential component units. The primary criteria for including a potential component unit within the reporting entity are the governing body's financial accountability and a financial benefit or burden relationship and whether it is misleading to exclude. A primary government is financially accountable and shares a financial benefit or burden relationship, if it appoints a voting majority of an organization's governing body and it is able to impose its will on the organization, or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government. A primary government may also be financially accountable if an organization is fiscally dependent on the primary government regardless of whether the organization has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the primary government.

The accompanying basic financial statements present the activity of the City and its component units, the Culver City Housing Authority, and the Culver City Parking Authority, and the Culver City Financing Authority.

Blended Component Units

Management determined that the following component units should be blended based on the criteria above.

Although the following component units are legally separate from the City, they have been "blended" as though they are part of the City because the component units' governing body are substantially the same as the City's and there is a financial benefit or burden relationship between the City and the component units; and the management of the City has operational responsibilities for the component units; and/or the component units provide services entirely, or almost entirely, to the City or otherwise exclusively, or almost exclusively, benefits the City, even though they do not provide services directly to City.

<u>The Culver City Housing Authority (the "Housing Authority")</u> was established in January 2012 to serve as the Housing Successor Agency for the dissolved Redevelopment Agency and is governed by a board comprised of the City Council. The Housing Authority received the housing assets of the Redevelopment Agency and performs the housing functions of the dissolved Redevelopment Agency. The Housing Authority is reported as a special revenue fund. Separate financial statements are not prepared.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

A. Reporting Entity (Continued)

Blended Component Units (Continued)

<u>The Culver City Parking Authority (the "Parking Authority")</u> was created in 1965 pursuant to Section 32500 of the California Streets and Highways Code for the purpose of creating public parking facilities and undertaking activities incidental thereto for which public money may be spent and private property acquired. The Parking Authority is governed by a board comprised of the City Council and is reported as a special revenue fund. Separate financial statements are not prepared.

<u>The Culver City Financing Authority (the "Financing Authority")</u> is a joint powers authority between the City and the former Redevelopment Agency and was created to provide financing for capital projects. The Financing Authority is governed by a board comprised of the City Council and is a blended component unit of the City. Separate financial statements are not prepared.

B. Basis of Accounting and Measurement Focus

The basic financial statements of the City are composed of the following:

- ➤ Government-wide financial statements
- > Fund financial statements
- Notes to the basic financial statements

Government-wide Financial Statements

Government-wide financial statements display information about the reporting government as a whole, except for its fiduciary activities. These statements include separate columns for the governmental and business-type activities of the primary government (including its blended component units). Governmental activities include governmental funds and proprietary internal service funds. Business-type activities include proprietary enterprise funds. Eliminations have been made in the Statement of Activities so that certain allocated expenses are recorded only once (by the function to which they were allocated). However, general government expenses have not been allocated as indirect expenses to the various functions of the City.

Government-wide financial statements are presented using the "economic resources" measurement focus and the accrual basis of accounting. Under the economic resources measurement focus, all (both current and long-term) economic resources and obligations of the reporting government are reported in the government-wide financial statements. Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program. Taxes and other items not included among program revenues are reported instead as general revenues.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. The issuance of long-term debt is recorded as a liability in the government-wide financial statements, rather than as another financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Fund Financial Statements

The underlying accounting system of the City is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental, proprietary, and fiduciary funds are presented after the government-wide financial statements. These statements display information about the major funds individually and nonmajor funds in the aggregate for governmental and enterprise funds. Fiduciary funds of the City primarily represent assets held by the City as a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds.

Governmental Funds

In the fund financial statements, governmental funds are presented using the modified-accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Measurable means that the amounts can be estimated, or otherwise determined. Available means that the amounts were collected during the reporting period or soon enough thereafter to be available to finance the expenditures accrued for the reporting period. The City uses an availability period of 60 days.

Revenue recognition is subject to the measurable and availability criteria for the governmental funds in the fund financial statements. Exchange transactions are recognized as revenues in the period in which they are earned (i.e., the related goods or services are provided). Locally imposed derived tax revenues are recognized as revenues in the period in which the underlying exchange transactions upon which they are based takes place. Imposed nonexchange transactions are recognized as revenues in the period for which they were imposed. If the period of use is not specified, they are recognized as revenues when an enforceable legal claim to the revenues arises or when they are received, whichever occurs first. Government-mandated and voluntary nonexchange transactions are recognized as revenues when all applicable eligibility requirements have been met.

In the fund financial statements, governmental funds are presented using the "current financial resources" measurement focus. This means that only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources are generally included on the balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Non-current portions of long-term receivables due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered "available spendable resources," since they do not represent net current assets.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Governmental Funds (Continued)

Revenues, expenses, assets, deferred outflows, liabilities, and deferred inflows resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 33 which requires that local governments defer grant revenue that is not received within 60 days after the fiscal year end to meet the "available" criteria of revenue recognition. In the past, the industry practice for grants was to recognize revenue in the fiscal year in which the related expense was incurred.

Therefore, recognition of governmental fund type revenues represented by non-current receivables are deferred until they become current receivables. Non-current portions of other long-term receivables are offset by fund balance nonspendable accounts.

Sales taxes, property taxes, franchise taxes, intergovernmental, rental income, transient occupancy taxes and special assessments are all considered to be susceptible to accrual and have been recognized as revenues in the current fiscal period to the extent normally collected within the availability period. Other revenue items are considered to be measurable and available when cash is received by the government.

Due to the nature of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The issuance of long-term debt is recorded as other financing sources rather than as a fund liability. Amounts paid to reduce long-term indebtedness are reported as fund expenditures.

Proprietary Funds

The City's enterprise and internal service funds are proprietary funds. In the fund financial statements, the proprietary funds are presented using the "economic resources" measurement focus and the accrual basis of accounting.

Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, the proprietary funds are presented using the economic resources measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. The proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, taxes, and investment earnings result from nonexchange fund transactions or ancillary activities. Amounts paid to acquire capital assets are capitalized as assets in the enterprise financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as a liability in the enterprise fund financial statements, rather than as another financing source. Amounts paid to reduce long-term indebtedness of the enterprise fund are reported as a reduction of the related liability, rather than as expenditures.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

B. Basis of Accounting and Measurement Focus (Continued)

Proprietary Funds (Continued)

Internal service funds are also presented in these statements. However, internal service balances and activities have been combined with the governmental activities in the government-wide financial statements. These internal service funds account for charges to other funds and departments for insurance, maintenance, and equipment acquisition.

Fiduciary Funds

Fiduciary fund financial statements include a Statement of Net position and a Statement of Changes in Fiduciary Net Position. The City's fiduciary funds represent agency funds and private purpose trust funds. Both agency funds and the private purpose trust funds are accounted for on the full accrual basis of accounting.

> Successor Agency to the Culver City Redevelopment Agency Trust Fund

The fund is used to account for the winding down of the former Redevelopment Agency, including disposition of real property held by the Agency and payment of enforceable obligations.

> Agency Funds

Agency funds are used to account for assets held by the City as an agent for individuals, private organizations, other government units, and/or other funds. An agency fund such as Treasurer's Trust is used to account for refundable deposits entrusted with the City Treasurer/Finance department. The Culver City Revitalization Corp is a non-profit corporation created to allow certain funding to be expended on improvements to out-of-city properties adjacent to or abutting in-city properties in Component Area No. 2 of the former Culver City Redevelopment Project Area. The agency funds are purely custodial in nature (assets equal liabilities) and thus, does not involve measurement of results of operations.

C. Fund Classifications

The City reports the following major governmental funds:

General Fund

This is the primary operating fund of the City. It accounts for all activities of the general government, except those required to be accounted for in another fund.

Culver City Housing Authority Fund

The fund is used to account for the former Low/Moderate Income Housing Funds transferred to the City under the 2011 Cooperation and Implementation Agreement. It is also anticipated that future funding will be provided from the Successor Agency from the past redevelopment agency repayment obligations. These funds are restricted to be used for qualified low/moderate income housing projects identified in the Agreement.

> Capital Improvement and Acquisition Fund

The fund is used to account for capital projects that are not otherwise funded by a special revenue fund or other specifically identified by the sources of funding. Project funding is mainly from general revenues allocated by action of the City Council.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

C. Fund Classifications (Continued)

The City reports the following major enterprise funds:

- <u>Refuse Disposal Fund</u> This fund is used to account for the operation and the capital assets of the City's refuse disposal service.
- ➤ <u>Municipal Bus Lines Fund</u> This fund is used to account for the operation and the capital assets of the City's transportation system.
- > <u>Sewer Enterprise Fund</u> This fund is used to account for the maintenance and operation, and the capital assets of the City's sewage disposal service.
- Municipal Fiber Network This fund is used to account for the installation of open access network where Internet Service Providers ("ISP") will utilize the City's fiber infrastructure to service the business community.

D. Cash and Investments

The City pools its available cash for investment purpose. Cash includes cash on hand and demand deposits with financial institutions.

Investments are reported in the accompanying balance sheet at fair value. Changes in fair value that occur during a fiscal year are recognized as *investment income* reported for that fiscal year. *Investment income* includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments. The City pools the cash and investments of all funds, except for assets held by fiscal agents. Each fund's share in this pool is displayed in the accompanying financial statements as *cash and investments*.

E. Cash Equivalents

For purposes of the statement of cash flows, cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash or so near their maturity that they present insignificant risk of changes in value because of changes in interest rates, and have an original maturity date of 3 months or less. Cash equivalents represent the proprietary funds' share in the cash and investment pool of the City.

F. Fair Value Measurement

U.S. GAAP defines fair value, establishes a framework for measuring fair value and establishes disclosure about fair value measurement. Investments, unless otherwise specified at fair value in the financial statements, are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

F. Fair Value Measurement (Continued)

Levels of inputs are as follows:

- Level 1 Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date.
- Level 2 Inputs, other than quoted prices included in Level 1, that are observable for the assets and liabilities through corroboration with market data at the measurement date.
- Level 3 Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets and liabilities at the measurement date.

G. Inventories

Inventories are stated at cost. Physical counts of inventories are taken on a cyclical basis during each fiscal year with perpetual records adjusted to actual at that time. The City uses the consumption method of accounting for inventories.

H. Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred as either "due to/from other funds" or "advances to/from" (i.e., the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the Governmental-Wide Financial Statement as "internal balances".

I. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Capital assets are valued at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are valued at their estimated acquisition value on the date of donation. Capital assets subject to lease obligations are valued at the net present value of future lease payments at the inception of the lease. The City has reported all capital assets including infrastructure in the government-wide statement of net position. The City's policy is to capitalize assets over \$5,000 with a useful life of at least three years.

Depreciation of all exhaustible capital assets used by the governmental and business-type activities is charged as an expense against their operations. Accumulated depreciation is reported on the statement of net position.

Depreciation has been calculated using the straight-line method over the following estimated useful lives.

Buildings and infrastructure 50-65 years
Other improvements 20 years
Refuse transfer station 50 years
Transportation equipment 5-12 years
Other equipment 3-25 years

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

J. Interest Payable

In the government-wide financial statements, interest payable on long-term debt is recognized as the liability is incurred for governmental activities and business-type activities. In the fund financial statements, only proprietary fund types recognize the interest payable when the liability is incurred.

K. Unearned Revenue

Unearned revenue is recognized for transactions for which revenue has not yet been earned. Typical transactions recorded as unearned revenues are prepaid charges for services and grants received but not yet earned.

L. Deferred Outflows and Inflows of Resources

The City reports deferred outflows and inflows of resources. A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period. A deferred inflow of resources represents an acquisition of net position that is applicable to a future period.

Under the modified accrual basis of accounting, revenue susceptible to accrual must be both measurable and available to finance expenditures of the current fiscal period. If assets are reported in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding deferred inflow of resources.

M. Long-Term Debt

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the appropriate activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, the governmental fund financial statements do not present long-term liabilities. Consequently, long-term debt is shown as a reconciling item in the reconciliation of the governmental funds balance sheet to the government-wide statement of net position.

N. Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans (Note 10). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

CalPERS

Valuation Date June 30, 2017 Measurement Date June 30, 2018

Measurement Period July 1, 2017 to June 30, 2018

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

N. Pension Plan (Continued)

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

O. Other Postemployment Benefits ("OPEB")

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Culver City Retiree Benefits Plan ("OPEB Plan") and additions to/deductions from OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fairvalue, except for money market investments, which are reported at amortized cost.

The following timeframes are used for pension reporting:

OPEB

Valuation Date June 30, 2017 Measurement Date June 30, 2019

Measurement Period July 1, 2018 to June 30, 2019

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the source of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over 5 years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

P. Employee Leave Benefits

A liability is recorded for unused vacation and similar compensatory leave balances since the employees' entitlement to these balances are attributable to services already rendered and it is probable that virtually all of these balances will be liquidated by either paid time off or payments upon termination or retirement.

A liability is recorded for unused sick leave balances only to the extent that it is probable that the unused balances will result in termination payments. This is estimated by including in the liability the unused balances of employees currently entitled to receive termination payment, as well as those who are expected to become eligible to receive termination benefits as a result of continuing their employment with the City. Other amounts of unused sick leave are excluded from the liability since their payment is contingent solely upon the occurrence of a future event (illness) which is outside the control of the City and the employee.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

P. Employee Leave Benefits (Continued)

A proprietary fund liability is accrued for all leave benefits relating to the operations of the Proprietary funds. A current liability is accrued in the governmental funds for material leave benefits due on demand to governmental fund employees that have terminated prior to fiscal year end. All other amounts are recorded in the government-wide financial statements. These non-current amounts will be recorded as fund expenditures in the year in which they are paid or become due on demand to terminated employees.

The City's employees earn vacation leave (vary depending on years of service) based on days employed. Upon retirement or termination, payment of accumulated vacation may not exceed that which can be accumulated within two years for employees. Unused sick leave, based on days employed, may be accumulated up to certain limits. Upon retirement or termination, employees will be paid a maximum of 720 hours of sick pay.

Q. Claims and Judgments

The City records a liability for litigation, judgments, and claims when it is probable that an asset has been impaired or a liability (including incurred but not reported) has been incurred prior to fiscal year end and the probable amount of loss (net of any insurance coverage) can be reasonably estimated. This liability is recorded in the Risk Management Internal Service Fund.

R. Property Taxes

Under California law, property taxes are assessed and collected by the counties up to 1% of assessed value, plus other increases approved by the voters. The property taxes go into the county pool, and are then apportioned to the cities based on complex formulas. Accordingly, the City accrues only those taxes which are received within 60 days after year end.

The property tax calendar is as follows:

Lien Date: January 1 Levy Date: June 30

Due Date: First Installment – November 1

Second Installment – February 1

Delinquent Date: First Installment – December 10

Second Installment – April 10

S. Net Position

In the government-wide financial statements and proprietary fund financial statements, net position is classified as follows:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets (including reported intangible assets) net of accumulated depreciation/amortization and reduced by outstanding debt that is attributed to the acquisition, construction or improvement of the assets (net of unspent debt proceeds) and related deferred outflows and inflows of resources.

<u>Restricted</u> – This component of net position consists of restricted assets plus deferred outflows of resources, and reduced by liabilities and deferred inflows of resources related to those assets.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

S. Net Position (Continued)

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

T. Fund Balances

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent.

- Nonspendable fund balance amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.
- Restricted fund balance amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance amounts that can only be used for specific purposes determined by formal action of the City's highest level of decision-making authority (the City Council) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period. Resolution is the highest level of the City Council's approval. The City Council establishes, modifies or rescinds fund balance commitments by passage of a resolution.
- Assigned fund balance amounts that are constrained by the City's intent to be used for specific purposes. The intent can be established at either the highest level of decision making, or by a body or an official designated for that purpose. The officials designated for authorizing assigned fund balances are the Chief Financial Officer and the City Manager by Council Resolution approved in the July 25, 2011 City Council Meeting and by City Fund Balance Policy.
- Unassigned fund balance the residual classification for the City's funds that include amounts not contained in the other classification. The General fund is the only fund that reports a positive unassigned fund balance amount. However, if governmental funds other General Fund, had expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Financial Reserves Policy

Prudent financial management dictates that some portion of the funds available to the City be reserved for future use.

As a general budget principle concerning the use of reserves, the City Council decides whether to appropriate funds from Reserve accounts. Even though a project or other expenditure qualifies as a proper use of Reserves, the Council may decide that it is more beneficial to use current year operating revenues or bond proceeds instead, thereby retaining the Reserve funds for future use. Reserve funds will not be spent for any function other than the specific purpose of the Reserve account from which they are drawn without specific direction in the annual budget; or by a separate City Council action. Information regarding annual budget adoption and administration is contained in City Council Policy 5001, included in the annual budget document.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

T. Fund Balances (Continued)

Financial Reserves Policy (Continued)

The City Council has imposed the following commitments of fund balance in the General Fund to establish reserves:

- 1. <u>Contingency Reserve</u>: The Contingency Reserve shall have a target balance of thirty percent (30%) of General Fund "Operating Budget" as originally adopted. Operating Budget for this purpose shall include current expenditure appropriations and shall exclude Capital Improvement Projects and Transfers Out. Appropriation and/or access to these funds are reserved for emergency situations only. The parameters by which the Contingency Reserve could be accessed would include the following circumstances:
 - a. A catastrophic loss of critical infrastructure requiring an expenditure of greater than or equal to five percent (5%) of the General Fund, Operating Budget, as defined above.
 - b. A State or Federally declared state of emergency where the City response or related City loss is greater than or equal to five percent (5%) of the General Fund, Operating Budget.
 - c. Any settlement arising from a claim or judgment where the loss exceeds the City's insured policy coverage by an amount greater than or equal to five percent (5%) of the General Fund, Operating Budget.
 - d. Deviation from budgeted revenue projections in the top three General Fund revenue categories, namely, Sales Taxes, Utility Users' Taxes and Business Taxes in a cumulative amount greater than or equal to five percent (5%) of the General Fund, Operating Budget.
 - e. Any action by another government that eliminates or shifts revenues from the City amounting to greater than or equal to five percent (5%) of the General Fund, Operating Budget.
 - f. Inability of the City to meet its debt service obligations in any given year.
 - g. Any combination of factors a.-f. amounting to greater than or equal to five percent (5%) of the General Fund, Operating Budget in any one fiscal year.

Use of the Contingency Reserve must be approved by the City Council. Should the Contingency Reserve commitment reserve be used, the City Manager shall present a plan to City Council to replenish the reserve within five years.

- 2. Facilities Planning Reserve: The Facilities Planning Reserve has been established to offset the cost of replacement or major refurbishment to critical City facilities such as, but not limited to, the City Hall building and Police Department buildings, Fire Stations, and other Facility Improvement Projects. Use of this Reserve must be approved by City Council. This Reserve shall be funded by allocations of General Fund surplus revenues, as defined later in this policy, or by specific City Council allocations. The eligible uses of this reserve include the cash funding of public facility improvements or the servicing of related debt.
- 3. <u>Recreational Facilities</u>: City Council Policy 5003 requires ten percent (10%) of gross annual revenues derived from specified recreational classes and rentals to be set aside for the refurbishment of certain recreational facilities, fee-based activity programs and equipment used in connection with fee-based recreation classes.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

U. Spending Policy

Government-Wide Financial Statements and the Proprietary Fund Financial Statements

When expenses are incurred for purposes for which both restricted and unrestricted components of net position are available, the City's policy is to apply the restricted component of net position first, then the unrestricted component of net position as needed.

Governmental Fund Financial Statements

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the City's policy is to apply restricted fund balances first, then unrestricted fund balances as needed.

When expenditures are incurred for purposes where only unrestricted fund balances are available, the City uses the unrestricted resources in the order of committed, assigned then unassigned, except for instances wherein an ordinance specifies the fund balance.

V. Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

W. New Accounting Pronouncements

GASB Statement No. 83, Certain Asset Retirement Obligations. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations (ARO). This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO. Application of this statement did not have a significant effect on the City's basic financial statements for the fiscal year ended June 30, 2019.

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements (GASB 88). The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This statement did not have a significant impact on the City's basic financial statements for the year ended June 30, 2019.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 2 – Stewardship, Compliance, and Accountability

A. Deficit Fund Balances/Net Position

As of June 30, 2019, (deficit) fund balances/net position were recorded in the following funds:

| Major Proprietary Funds: | |
|---------------------------------|-------------------|
| Refuse Disposal Fund | \$ (5,223,750) |
| Municipal Fiber Network Fund | (3,918,637) |
| Nonmajor Governmental Funds: | |
| Special Revenue Funds: | |
| Operating Grants Fund | (542,042) |
| Paratransit Fund | (58,301) |
| Capital Projects Funds: | |
| Capital Improvement Grants Fund | (1,447,244) |
| Internal Service Funds: | |
| Equipment Maintenance Fund | (10,022,996) |
| Risk Management Fund | (16,295,557) |
| Fiduciary Fund: | |
| Private Purpose Trust Fund | (78,218,498) |

The material deficits are expected to be eliminated as follows:

Refuse Disposal Fund – The deficit is due to inclusion of the net pension liability and net OPEB liability totaled to \$10,987,755. The City will develop a plan to reduce deficit.

Municipal Fiber Network Fund – The deficit is due to the construction of an open access network where internet service providers will be able to utilize City's fiber infrastructure to serve business community. The City is expecting that this will generate revenue for them and allow them to operate with surplus soon.

Operating Grants Fund – The deficit will be eliminated after grant monies are received after the availability period and unavailable revenue being recognized as revenue.

Paratransit Fund – The deficit will be eliminated after grant monies are received after the availability period and unavailable revenue being recognized as revenue.

Capital Improvement Grants Fund – The deficit will be eliminated after grant monies are received after the availability period and unavailable revenue being recognized as revenue.

Equipment Maintenance Fund – The City intends to implement a plan to increase charges to user departments to reduce the deficit fund balance over the upcoming several years. The deficit is due to inclusion of the net pension liability and net OPEB liability totaled to \$9,669,620.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 2 – Stewardship, Compliance, and Accountability (Continued)

A. Deficit Fund Balances/Net Position (Continued)

Risk Management Fund – The City is analyzing the trend for recent increases in the incurred, but not reported claims liability as determined by its actuary. The City will develop a plan to ensure charges cover operating expenses. The deficit is partially due to inclusion of the net pension liability and net OPEB liability totaled to \$3,084,534.

Private Purpose Trust Fund – The deficit will be eliminated after tax increment revenue are distributed to City's Successor Agency.

The City also had a deficit unrestricted net position for governmental activities and business-type activities at June 30, 2019 in the amount of \$(153,018,185) and \$(17,980,821), respectively. It was mainly due to the net pension related liabilities and net other postemployment benefits related liabilities. The net pension liabilities for governmental activities and business-type activities at June 30, 2019 were \$(205,939,174) and \$(27,830,814), respectively. The net other postemployment benefits related liabilities for governmental activities and business-type activities at June 30, 2019 were \$(73,957,565) and \$(10,994,868), respectively.

B. Excess of Expenditures Over Appropriations by Department in Individual Funds

| | | | | | Excess of Expenditures over | | |
|----------------------------------|-----------|------------|----------------|------------|-----------------------------|-------------|--|
| Fund | Fund Expe | | Appropriations | | Appropriations | | |
| Major Governmental Funds: | | | | | | | |
| General Fund: | | | | | | | |
| General government | \$ | 16,573,263 | \$ | 15,359,837 | \$ | (1,213,426) | |
| Fire | | 25,075,958 | | 24,979,736 | | (96,222) | |
| Nonmajor Governmental Funds: | | | | | | | |
| Special Revenue Funds: | | | | | | | |
| Operating Grants Fund | | | | | | | |
| Police | | 229,573 | | 149,846 | | (79,727) | |

City of Culver City Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2019

Note 3 – Cash and Investments

N/A - Not Applicable

Cash and investments as of June 30, 2019 are classified in the accompanying financial statements as follows:

| | Government-Wide Financial Statement | | | | _ | | | | |
|--|-------------------------------------|--------------|----|----------------------------|----|------------|-----------|-------------|--|
| | G | Governmental | | Governmental Business-Type | | _ | Fiduciary | | |
| | | Activities | | Activities | | Funds | | Total | |
| Cash and investments | \$ | 143,273,413 | \$ | 34,899,910 | \$ | 13,431,678 | \$ | 191,605,001 | |
| Cash and investments held with fiscal agents | | | | 1,663,167 | | 56,679,346 | | 58,342,513 | |
| Total cash and investments | \$ | 143,273,413 | \$ | 36,563,077 | \$ | 70,111,024 | \$ | 249,947,514 | |

Cash and investments as of June 30, 2019 consist of the following:

| Cash: | |
|-----------------|----------------|
| Petty cash | \$ 4,550 |
| Demand deposits | 13,426,344 |
| Total cash | 13,430,894 |
| | |
| Investments | 236,516,620 |
| Total | \$ 249,947,514 |

Investments Authorized by the California Government Code and the City's Investment Policy

This table identifies the investment types that are authorized for the City by the California Government Code and the City's investment policy. The table also identifies certain provisions of the California Government Code (or the City's investment policy, if more restrictive) that address interest rate risk and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

| | Authorized | | *M aximum | *M aximum |

Note 3 – Cash and Investments (Continued)

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity. For purposes of the schedule shown below, any callable securities are assumed to be held to maturity.

| | | Investment Maturities (in Years) | | | | | | | |
|---|-------------------|----------------------------------|-------------|------------------|------------|-----------------|------------|----|------------|
| Investment Type | Fair Value | Less Than 1 Ye | | ear 1 to 2 Years | | rs 2 to 3 Years | | 3 | to 4 Years |
| Treasury obligations | \$ 22,503,494 | \$ | 8,958,123 | \$ | 8,029,678 | \$ | 3,013,593 | \$ | 2,502,100 |

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented on the following page is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

| | | Rating as of Fiscal Year End | | | | | | | | | |
|---|---------------|------------------------------|--------------|---------------|--------------|--------------|--------------|--------------|--|--|--|
| Investment Type | Amount | Minimum Legal Rating | AAA | AA+ | AA | AA- | A | Not Rate | | | |
| Treasury obligations | \$ 22,503,494 | N/A | \$ - | \$ 22,503,494 | \$ - | \$ - | \$ - | \$ - | | | |
| State investment pool | 59,205,706 | N/A | - | - | - | - | - | 59,205,706 | | | |
| U.S. government sponsored enterprise securities | 58,255,831 | N/A | - | 58,255,831 | - | - | - | - | | | |
| Money market mutual funds | 2,044,856 | AAA | 2,044,856 | - | - | - | - | - | | | |
| Medium-term notes | 25,561,684 | A | 2,497,026 | 1,998,000 | 4,594,276 | 6,027,335 | 8,987,184 | 1,457,863 | | | |
| Cash and investments with fiscal agents: | | | | | | | | | | | |

| Commercial paper | 1,104,307 | A | 1,104,307 | | | | | | | | |
| Total | \$236,516,620 | | \$17,911,892 | \$138,332,364 | \$ 4,594,276 | \$ 6,027,335 | \$ 8,987,184 | \$60,663,569 | | | |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 3 – Cash and Investments (Continued)

Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City investments are as follows:

| | | Reported | | % of |
|--------------------------|---|--------------|-----------|---------------|
| Issuer | Investment type | Amount | Maturity | the Portfolio |
| Federal Home Loan Bank | U.S. government sponsored enterprise securities | \$17,429,530 | 2019-2022 | 10.40% |
| Federal Farm Credit Bank | U.S. government sponsored enterprise securities | 16,975,765 | 2019-2023 | 10.13% |
| Freddie Mac | U.S. government sponsored enterprise securities | 10,364,930 | 2019-2020 | 6.19% |
| Freddie Mae | U.S. government sponsored enterprise securities | 13,485,607 | 2019-2022 | 8.05% |

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments,

Disclosures Relating to Credit Risk

The market value of pledged securities must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City may waive collateral requirements for cash deposits, deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation ("FDIC"). The City did not waive the collateral requirement for deposits insured by FDIC.

For investments identified herein as held by bond trustee, the bond trustee selects the investment under the terms of applicable trust agreement, acquires the investment, and holds the investment on behalf of the reporting government.

Investment in State Investment Pool

The City is a participant in Local Agency Investment Fund ("LAIF") which is regulated by California Code Section 16429 under the oversight of the Treasurer of the State of California. The City's investments in LAIF at June 30, 2018 included a portion of pool funds invested in Structured Notes and Asset-Backed Securities:

<u>Structured Notes</u> are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>, the bulk of which are mortgage-backed securities, entitle their purchases to receive a share of the cash flows from pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit care receivables.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 3 – Cash and Investments (Continued)

Investment in State Investment Pool (Continued)

As of June 30, 2019, the City had \$59,205,706 invested in LAIF, which had invested 1.77% of the pool investment funds in Structured Notes and Asset-Backed Securities. LAIF determines fair value on its investment portfolio based on market quotations for those securities where market quotations are readily available and based on amortized cost or best estimate for those securities where market value is not readily available. The investment in LAIF is reported at net asset value. The credit quality rating of LAIF is unrated as of June 30, 2019.

Note 4 – Interfund Balances

A. Internal Balances

At June 30, 2019, the City had following internal receivable and payable, which represents internal service charges between the governmental activities and business-type activities:

| | Inte | rnal Payable |
|-------------------------|------|--------------|
| | · · | - |
| | _ Bu | siness-Type |
| Internal Receivable | | Activities |
| Governmental Activities | \$ | 14,719,964 |

B. Due From and To Other Funds

At June 30, 2019, the individual fund interfund receivable payable balances are as follows:

| _ | | Due From Other Funds | | | | | | | | | |
|-------------------------------|--------------------------------------|----------------------|------------|--------------|----|-----------|--|--|--|--|--|
| | Governmental Funds Proprietary Funds | | | | | | | | | | |
| Due To Other Funds | | | | | | | | | | | |
| | | General Fund | Internal S | Service Fund | | Total | | | | | |
| Governmental Funds: | | | | | | | | | | | |
| Culver City Housing Authority | | | | | | | | | | | |
| Special Revenue Fund | \$ | 1,436 | \$ | 13 | \$ | 1,449 | | | | | |
| Nonmajor Governmental | | 1,876,679 | | 90 | | 1,876,769 | | | | | |
| Proprietary Funds: | | | | | | | | | | | |
| Municipal Fiber Network | | 674,531 | | - | | 674,531 | | | | | |
| Internal Service Funds | | 605,664 | | - | | 605,664 | | | | | |
| Total | \$ | 3,158,310 | \$ | 103 | \$ | 3,158,413 | | | | | |

Interfund balances are the result of short term borrowing to cover negative cash balances and operating shortages at June 30, 2019 as well as from the time lag between the dates that reimbursable expenditures occur and the dates the related revenues are received. All balances are expected to be reimbursed within the subsequent year.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 4 – Interfund Balances (Continued)

C. Advances From and To Other Funds

At June 30, 2019, the individual fund advances to from balances are as follows:

| | | A | ds | | | | |
|------------------------------|----|-------------|-----|----------------|-------|------------|--|
| | | Governme | | | | | |
| Advances From Other Funds | | | | | | | |
| Advances From Other Funds | | | Hou | sing Authority | | | |
| | G | eneral Fund | | Fund | Total | | |
| Proprietary Funds: | | | | | | | |
| Municipal Fiber Network Fund | \$ | 14,045,433 | \$ | - | \$ | 14,045,433 | |
| Fiduciary Funds: | | | | | | | |
| Successor Agency Fund | | - | | 19,375,821 | | 19,375,821 | |
| Total | \$ | 14,045,433 | \$ | 19,375,821 | \$ | 33,421,254 | |

At June 30, 2019, the Municipal Fiber Network Fund owes the General Fund \$14,045,433 to cover the initial construction costs, on year of operating costs and also for a number of initial lateral connections. The loan was structured to be allowed repayment at the point where revenues exceed operating and depreciation costs. The loan was increased by \$1,865,000 as approved by the City Council. The loan was further increased by the deferred loan payments of \$512,253 and reduced by a loan forgiven of \$1,376,761 as the City Council approved to defer the annual working capital loan payments and to forgive the annual construction loan payments in FY18-19.

The Successor Agency Fund owes Culver City Housing Authority Fund \$9,075,893 for ERAF and SERAF, and \$10,299,928 for LMIHF which can only be paid pursuant to the maximum repayment amount defined in Health and Safety Code Section 34176(6)B. Because of this, the number of years it will take to repay this advance to the Successor Agency is unknown.

D. Transfers In and Out

Government-Wide Financial Statements

| Total Business-Type Activities | \$ | 1,195 | | | |

A. City Manager Loan Agreement

On May 17, 2012, the City entered into a loan agreement with City Manager in the amount of \$1,200,000 with 1.0% interest rate and 30 years period. The balance of City Manager loan at June 30, 2019 was \$1,055,596. Refer to Note 15 for more details.

B. Culver City Mobile Home Owners, Inc.

On December 17, 1990, the former Culver City Redevelopment Agency entered into a promissory note with Culver City Mobile Home Owners, Inc. with a maximum loan amount in the amount of \$880,500 with 7.0% interest rate. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. The balance of the promissory note with accrued interest at June 30, 2019 was \$1,223,104.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 5 – Notes Receivables (Continued)

C. MAP Loans

The Housing Authority provides loan programs to the home owners of the City. The deferred loans are to be repaid upon sales of the home. As of June 30, 2019, all outstanding balances totaled to \$570,740.

D. Tilden Terrace - Residential

On February 22, 2012, the former Culver City Redevelopment Agency entered into a promissory note with Tilden Terrace, L.P. in the amount of \$11,805,000 with 3% interest rate. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. The balance of the promissory note at June 30, 2019 was \$11,805,000.

E. Home Ownership Made Easy

On April 20, 1992, the former Culver City Redevelopment Agency entered into a home loan agreement with Home Ownership Made Easy in the amount of \$412,250 with no interest. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. The balance of the home loan at June 30, 2019 was \$412,250.

F. Exceptional Children's Foundation ERAS Loans

On October 1, 1990, the former Culver City Redevelopment Agency entered into loan agreement with Educational Resources and Services Center Home ("ERAS"), a not-for-profit organization for the development of 6-unit group home for the developmentally disabled low and moderate income persons. On May 12, 2008, an assignment and assumption agreement were entered into, and the loan was assigned by ERAS to Exceptional Children's Foundation, another not-for-profit organization. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. As of June 30, 2019, the outstanding balance of the loan was in the amount of \$305,060.

G. Exceptional Children's Foundation Westside Opportunity Workshop

On February 11, 1991, the former Culver City Redevelopment Agency entered into Financing Assistance Agreement with Westside Opportunity Workshop ("WOW"), a not-for-profit organization, to purchase a property in the City in the amount of \$390,500. The property is to be sued as group home for developmentally disabled low and moderate income persons. On March 8, 2014, an assignment and assumption agreement was entered into, and the loan was assigned by WOW to Exceptional Children's Foundation, another not-for-profit organization. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. As of June 30, 2019, the outstanding balance of the loan was in the amount of \$387,500.

H. Habitat For Humanity of Greater Los Angeles

The Housing Authority provides loan programs to the home owners of the City. The deferred loans are to be repaid upon sales of the home. As of June 30, 2019, all outstanding balances totaled to \$3,100,000.

I. Tilden Terrace - Commercial

On February 22, 2012, the former Culver City Redevelopment Agency entered into a promissory note with Tilden Terrace, L.P. in the amount of \$3,395,000 with 3% interest rate. Following the dissolution of the former Culver City Redevelopment Agency, the loan was transferred to the Housing Authority. The balance of the promissory note at June 30, 2019 was \$3,395,000.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 7 – Long-Term Liabilities

A. Governmental Activities

Summary of changes in governmental activities long-term liabilities for the year ended June 30, 2019 are as follows:

| | Balance | | | Balance | Ι | Oue within | Г | Oue in more |
|---|-----------------------------|------------------------------|-------------------------------|-----------------------------|----|------------------------|----|-------------------------|
| | July 1, 2018 | Additions | Deletions | June 30, 2019 | | One Year | th | an One Year |
| Compensated absences Claims and judgments | \$ 12,835,730 15,730,950 | \$ 7,473,239 2.432.895 | \$ (8,128,231) (2,193,224) | \$ 12,180,738 15,970,621 | \$ | 4,502,080 3.816.408 | \$ | 7,678,658 12,154,213 |
| Total | \$ 28,566,680 | \$ 9,906,134 | \$ (10,321,455) | \$ 28,151,359 | \$ | 8,318,488 | \$ | 19,832,871 |

The general fund and internal services funds are typically used to liquidate the compensated absences payable, the net pension liability, and the other post employment benefit liability.

B. Business-Type Activities

Summary of changes in business-type activities long-term liabilities for the year ended June 30, 2019 are as follows:

| | | Balance | | | | Balance | Γ | Oue within | Γ | Oue in more |
|--------------------------------------|----|-------------|-----------------|-------------------|----|-------------|----|------------|----|-------------|
| | J | uly 1, 2018 | Additions | Deletions | Ju | ne 30, 2019 | | One Year | th | an One Year |
| Compensated absences | \$ | 1,646,581 | \$ 1,628,255 | \$ (1,695,725) | \$ | 1,579,111 | \$ | 707,916 | \$ | 871,195 |
| 2009 Wastewater Facilities Refunding | | | | | | | | | | |
| Revenue Bonds | | 14,120,000 | _ | (885,000) | | 13,235,000 | | 925,000 | | 12,310,000 |
| Total | \$ | 15,766,581 | \$ 1,628,255 | \$ (2,580,725) | \$ | 14,814,111 | \$ | 1,632,916 | \$ | 13,181,195 |

The refuse disposal, municipal bus lines, and sewer fund are are typically used to liquidate the compensated absences payable, the net pension liability, and the other post-employment benefit liability.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 8 – Bonds Payable

Business-Type Activities

2009 Series A Wastewater Facilities Refunding Revenue Bonds

The 2009 Series A Wastewater Facilities Refunding Revenue Bonds (2009 Bonds) dated July 10, 2009 were issued in the amount of \$20,085,000 with a final maturity date of September 1, 2029. The 2009 Bonds were issued to provide funds to (a) refinance the City's Wastewater Facilities Refunding Revenue Bonds, 1999 Series A. which were originally issued in the aggregate principal amount of \$25,080,000, of which \$18,075,000 remained outstanding, (b) fund a deposit to the Reserve Account, and (c) finance the costs of issuance of the 2009 Bonds.

A portion of the proceeds of the 2009 Bonds, together with certain other moneys to be released from funds relating to the 1999 Bonds was deposited in an escrow fund created pursuant to an Escrow Agreement, dated as of July 1, 2009, by and between the City and U.S. Bank National Association, an escrow bank. Moneys in the escrow fund are held as cash or invested solely in non-callable, direct general obligation of the United States of America. Moneys in the escrow fund, together with interest earnings thereon, were sufficient to pay all outstanding 1999 Bonds in full September 1, 2029, at a redemption price equal to 102% of the remaining principal amount to be redeemed, plus accrued interest thereon to the date of redemption.

The capital projects funded with a portion of the proceeds of the 2009 Bonds include the ongoing replacement of sewer transmission pipes and the construction and improvement of pump stations. The first payment of 2009 Bond principal was on September 1, 2010. Interest is paid semi-annually on March 1 and September 1 of each year.

The bonds maturing on or prior to September 1, 2019 are not subject to redemption prior to maturity. The bonds maturing on or after September 1, 2020 may be redeemed at the option of the City from any source of funds, on September 1, 2019 or thereafter prior to maturity, as a whole on any date or in part, in any order of maturity as determined by the City, or in the absence of direction by the City, pro rata among maturities, and by lot within each maturity, on any interest payment date, at a redemption price equal to 100 percent of the principal amount to be redeemed, plus accrued interest to the redemption date, without premium. The transaction also resulted in an economic gain of \$1,230,715 and a reduction of \$3,179,548 in future debt service payments.

The City has covenanted that it shall at all times prescribe, revise and collect rates, fees and charges for the use or service of the Sewer Enterprise Fund so that in each 12-month period such rates, fees and charges, together with other revenues reasonably expected to yield net revenues equal to at least 1.20 times the maximum annual debt service. The City is in compliance with such covenant at June 30, 2015.

Per the terms of the bond indenture, a reserve of \$1,608,838 is required to be maintained. At June 30, 2019, the reserve with fiscal agent was in the amount of \$1,663,167 and the total amount of 2009 Wastewater Refunding Revenue Bonds outstanding is \$13,235,000. The total amount of 1999 Series A Tax Allocation Refunding Revenue Bonds outstanding is \$0.

Note 8 – Bonds Payable (Continued)

Business-Type Activities (Continued)

2009 Series A Wastewater Facilities Refunding Revenue Bonds (Continued)

Future amounts to amortize the 2009 Wastewater Revenue Bonds are as follows:

| Fiscal Year | Principal | Interest | Total | | |
|-------------|---------------|--------------|---------------|--|--|
| 2020 | \$ 925,000 | \$ 656,463 | \$ 1,581,463 | | |
| 2021 | 970,000 | 609,588 | 1,579,588 | | |
| 2022 | 1,020,000 | 559,838 | 1,579,838 | | |
| 2023 | 1,070,000 | 506,250 | 1,576,250 | | |
| 2024 | 1,130,000 | 448,500 | 1,578,500 | | |
| 2025-2029 | 6,590,000 | 1,265,719 | 7,855,719 | | |
| 2030 | 1,530,000 | 38,250 | 1,568,250 | | |
| Total | \$ 13,235,000 | \$ 4,084,608 | \$ 17,319,608 | | |

Note 9 – Claims and Judgments

Self-Insurance

At June 30, 2019, the City was self-insured for workers' compensation claims, unemployment insurance, general automobile and public liability. The self- insurance program is accounted for in the Risk Management Internal Service Fund. At June 30, 2019, the City has recorded a liability in the amount of \$15,970,621 for unpaid workers' compensation and general liability claims, representing estimated amounts to be paid for actual claims and claims incurred but not reported, based upon actuarial evaluations for each plan.

The City pays all claims up to \$1,000,000 per occurrence with excess insurance overage up to statutory limits. Claims over a \$1,000,000 up to \$30,000,000 are covered by insurance policies secured through AON.

During the past three fiscal years, none of the above programs of protection have had settlements or judgments that exceeded pooled or insured coverage. There have been no significant reductions in pooled or insured liability coverage from the prior fiscal year.

Changes in the claims and judgments payable amounts in three years ended June 30, 2019 are as follows:

| | Balance at | Current Year | | Balance at |
|--------------|--------------|--------------|----------------|--------------|
| | Beginning of | Claims and | | End of |
| | Fiscal Year | Change in | Claim | Fiscal Year |
| Fiscal Years | Liability | Estimates | Pay ments | Liability |
| 2016-17 | \$15,273,372 | \$ 1,489,312 | \$ (1,195,351) | \$15,567,333 |
| 2017-18 | 15,567,333 | 1,033,898 | (870,281) | 15,730,950 |
| 2018-19 | 15,730,950 | 2,432,895 | (2,193,224) | 15,970,621 |

Plan Description

The City contributes to the California Public Employees' Retirement System ("CalPERS"), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and City ordinance. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2017 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Participant is eligible for non-industrial disability retirement if becomes disabled and has at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service. Industrial disability benefits are not offered.

An employee's beneficiary may receive the basic death benefit if the employee dies while actively employed. The employee must be actively employed with the City to be eligible for this benefit. An employee's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the employee's accumulated contributions, where interest is currently credited at 7.5 percent per year, plus a lump sum in the amount of one-month salary for each completed year of current service, up to a maximum of six months' salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death.

Upon the death of a retiree, a one-time lump sum payment of \$500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 2 percent.

Employees Covered by Benefit Terms

At June 30, 2017, the valuation date, the following employees were covered by the benefit terms:

| | Plan | S |
|--------------------------------------|---------------|--------|
| | Miscellaneous | Safety |
| Active employees | 479 | 160 |
| Transferred and terminated employees | 620 | 62 |
| Retired Employees and Beneficiaries | 611 | 290 |
| Total | 1710 | 512 |

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions.

Net Pension Liability

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2018, the total pension liability was determined by rolling forward the June 30, 2017 total pension liability. The June 30, 2018 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions:

Discount Rate 7.15% Inflation 2.50%

Salary Increases Varies by Entry Age and Service

Mortality Rate Table Derived using CalPERS' Membership Data for all Funds.

Post Retirement Benefit Increase Contract COLA up to 2.00% until Purchasing Power Protection

Allowance Floor on Purchasing Power applies, 2.50% thereafter

.

¹ The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS' website at www.calpers.ca.gov under Forms and Publications.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 10 - Pension Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Net Pension Liability (Continued)

Change of Assumptions

In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class are as followed:

| Asset Class ¹ | New Strategic Allocation | Real Return Years 1 - 10 ² | Real Return Years 11+ ³ |
|--------------------------|-----------------------------|--|---------------------------------------|
| Global equity | 50.00% | 4.80% | 5.98% |
| Fixed income | 28.00% | 1.00% | 2.62% |
| Inflation assets | 0.00% | 0.77% | 1.81% |
| Private equity | 8.00% | 6.30% | 7.23% |
| Real assets | 13.00% | 3.75% | 4.93% |
| Liquidity | 1.00% | 0.00% | -0.92% |
| Total | 100.00% | | |

¹ In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

² An expected inflation of 2.00% used for this period.

³ An expected inflation of 2.92% used for this period.

| Safety Plan | \$ | 196,168,663 | \$ | 143,498,131 | \$ | 100,244,643 | | | |

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the measurement period ending June 30, 2018, the City incurred a pension expense of \$13,618,829 and \$18,766,090 for Miscellaneous and Safety plans, respectively.

As of measurement date of June 30, 2018, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

| Miscellaneous Plan | | | | | |
|--|----|-------------------------------|-------------------------------|-------------|--|
| | | erred outflows f resources | Deferred inflows of resources | | |
| Pension contribution made after measurement date | \$ | 8,770,894 | \$ | - | |
| Difference between expected and actual experience | | 105,678 | | (811,380) | |
| Changes of assumptions | | 4,237,660 | | (1,636,735) | |
| Net difference between projected and actual earning on | | | | | |
| pension plan investments | | 620,577 | | - | |
| Total | \$ | 13,734,809 | \$ | (2,448,115) | |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 10 – Pension Plans (Continued)

A. California Public Employees' Retirement System ("CalPERS") (Continued)

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions (Continued)

| Safety Plan | | | | | | |
|--|----|-------------------------------|-------------------------------|-------------|--|--|
| | | erred outflows f resources | Deferred inflows of resources | | | |
| Pension contribution made after measurement date | \$ | 11,760,090 | \$ | - | | |
| Difference between expected and actual experience | | 2,092,236 | | (8,108) | | |
| Changes of assumptions | | 10,395,305 | | (1,004,733) | | |
| Net difference between projected and actual earning on | | | | | | |
| pension plan investments | | 956,033 | | - | | |
| Total | \$ | 25,203,664 | \$ | (1,012,841) | | |

The amounts above are net of outflows and inflows recognized in the 2017-18 measurement period expense.

The expected average remaining service lifetime ("EARSL") is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired). The EARSL for the miscellaneous plan and safety plan for the 2017-18 measurement period is 2.8 and 3.9 years, which was obtained by dividing the total service years of 4,725 and 2,007 (the sum of remaining service lifetimes of the active employees) by 1,710 and 512 (the total number of participants: active, inactive, and retired), respectively.

The \$8,770,894 and \$11,760,090 reported as deferred outflows of resources related to pension resulting from the City's contributions subsequent to the measurement date during the year ended June 30, 2019 will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

| Defe | rred Outflows/ | De | eferred Outflows/ |
|--------------------|------------------|--|------------------------------------|
| (Inflov | ws) of Resources | (Inf | lows) of Resources |
| Miscellaneous Plan | | | Safety Plan |

| | (1,994,085) | | (2,363,576) |
| | (544,683) | | (647,490) |
| | - | | - |
| | _ | | |
| \$ | 2,515,800 | \$ | 12,430,733 |
| | (Inflor | \$ 5,133,737 (79,169) (1,994,085) (544,683) | (Inflows) of Resources (Inflows) |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 10 – Pension Plans (Continued)

B. Public Agency Retirement Services ("PARS")

The City established the City of Culver City Alternative Retirement System, with PARS. Under PARS, the City participates in the defined contribution plan to benefit part time, seasonal and temporary employees not currently eligible for CalPERS. Pursuant to the PARS agreement, the PARS trust is administered by Phase II Systems with Union Bank of California acting as trustee. In accordance with the PARS trust agreement, the City does not manage the plan's assets or perform distributions to employees out of the plan. Phase II Systems and Union Bank of California perform these functions.

The PARS trust, authorized under the Internal Revenue Code Section 401(a) and Government Code Sections 53215-53224 and 2000, maintains the following general provisions.

- Eligibility Part-time employees who work less than 1,000 hours per fiscal year
- Eligible employees shall participate while not accruing a benefit under social security or PERS.
- Eligible employees and the City contribute 4 and 3.5 percent of compensation on a pre-tax basis, respectively.
- Contributions and distributions of the plan are not obligations of the City, and
- Amendments to the plan are subject to the discretion of the City

The City recognized pension expenses related to PARS plan in the amount of \$81,436 for the year ended June 30, 2019.

Note 11 – Other Postemployment Benefits ("OPEB")

At June 30, 2019, net OPEB liability and related deferred outflows of resources and deferred inflows of resources are as follows:

| | Governmental Activities | | Business-Type Activities | | Total | |
|--|-------------------------|------------|-----------------------------|------------|-------|-----------|
| Deferred outflows of resources: | | | | | | |
| Change in assumption | \$ | 4,163,096 | \$ | 618,904 | \$ 4 | 4,782,000 |
| Total deferred outflows of resources | \$ | 4,163,096 | \$ | 618,904 | \$ 4 | 4,782,000 |
| Net OPEB liabilities: | \$ | 73,957,565 | \$ | 10,994,868 | \$ 84 | 4,952,433 |
| Total net OPEB liabilities | \$ | 73,957,565 | \$ | 10,994,868 | \$ 84 | 4,952,433 |
| Deferred inflows of Resources: Net difference between projected and actual earning on | | | | | | |
| pension plan investments | \$ | 284,304 | \$ | 42,266 | \$ | 326,570 |
| Change in assumption | | 127,975 | | 19,025 | | 147,000 |
| Difference between expected and actual experience | | 9,056,603 | | 1,346,397 | 10 | 0,403,000 |
| Total deferred inflows of resources | \$ | 9,468,882 | \$ | 1,407,688 | \$ 10 | 0,876,570 |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Plan Description

In addition to the retirement plan described in Note 10, the City of Culver City's Retiree Health Insurance Program ("OPEB Plan") provides retiree healthcare benefits for eligible City employees and their spouses who retire with CalPERS pension benefits immediately upon termination of employment from the City. Benefit provisions are established and may be amended by the City Council.

Under the program, the City pays a portion of the premiums for retiree medical coverage as follows:

- Participants who retired before January 1, 2007 are eligible for a City contribution up to 100% of the average of Kaiser and PERS Care Premiums.
- Participants who retired between January 1, 2007 and December 31, 2011 are eligible for a City contribution up to 70% of the PERS Care premium or 95% of the premium for all other plans. Additionally, participants meeting the following additional criteria are also eligible for this benefit level (excluding members of the Culver City Police Officers Association):
 - o Employed with the City as of July 1, 2011.
 - o Earned a minimum of twenty years of CalPERS service credit (excluding additional retirement service credit purchased under California Government Code Section 20909, i.e., "Air-Time") as of December 31, 2011.
 - o Earn twenty-five years of service with Culver City and retire from the City prior to January 1, 2022.
- Participants employed by the City as of July 1, 2011 and retired after December 31, 2011 earning a minimum of five years of City service are eligible for the following benefit:
 - o A monthly premium reimbursement of up to \$542 for single coverage, increasing by up to 4% per year.
 - O An additional monthly reimbursement of up to \$473 for his or her enrolled spouse/domestic partner/dependent based on a vesting schedule. This additional reimbursement ends when a spouse or domestic partner becomes Medicare eligible, or when a dependent ages out. This amount is subject to an annual increase of up to 4%.
 - Participants with at least twenty years of City service that were members of the Culver City Police
 Officers Association with more than one enrolled dependent are eligible for an additional \$300 per
 month reimbursement.
- Employees hired after July 1, 2011 are not considered participants, and are only eligible for the legally required Public Employees' Medical and Hospital Care Act minimum, as stipulated by CalPERS.

Eligibility

Employees of the City are eligible for retiree health benefits if they are between 50-55 years of age as of the last day of work prior to retirement and are a vested member of CalPERS. Membership in the plan consisted of the following at June 30, 2017, the date of the latest actuarial valuation:

| Active plan members | 635 |
|---|-------|
| Inactive employees or beneficiaries currently | |
| receiving benefit payments | 532 |
| Inactive employees entitled to but not yet | |
| receiving benefit payments | 70 |
| Total | 1,237 |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Contribution

The obligation of the City to contribute to the plan is established and may be amended by the City Council. For the fiscal year ended June 30, 2019, the City's average contribution rate was not applicable. Employees are not required to contribute to the plan.

Net OPEB Liability

The City's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017.

Actuarial assumptions

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

| Discount rate | 6.50% |
|--|--|
| Inflation | 2.75% |
| Aggregate payroll increases | 3.00% |
| Expected long-term investment rate of return | 6.50% |
| Mortality, termination, and disability | CalPERS 1997-2015 Experience Study |
| Mortality improvement | Mortality projected fully generational with Scale P-2017 |
| PPACA high cost plan excise tax | 2% load on cash subsidy |
| Medical trend | Non-Medicare: 7.50% for 2019, decreasing to an ultimate rate of |
| | 4.00% in 2076; |
| | Medicare: 6.50% for 2019, decreasing to an ultimate rate of 4.0% |
| | in 2076. |

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2016 through June 30, 2017.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | Expected Real Rate |
|-----------------|-------------------|--------------------|
| Asset Class | Target Allocation | of Return |
| Growth Assets: | | |
| Domestic Equity | 44.00% | 4.53% |
| Foreign Equity | 23.00% | 4.93% |
| Fixed Income | 33.00% | 1.47% |
| Total | 100.00% | ! |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 11 – Other Postemployment Benefits ("OPEB") (Continued)

Net OPEB Liability (Continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Change in the Net OPEB Liability

| | Increase (Decrease) | | | | | | |

Change in the Net OPEB Liability (Continued)

Sensitivity of the net OPEB liability to changes in the health care cost trend rates

The following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (6.50 percent decreasing to 4.00 percent) or 1-percentage-point higher (8.50 percent decreasing to 4.00 percent) than the current healthcare cost trend rates:

| | Plan's Net OPEB Liability/(Asset) | | | | | | |
|---|---|----|------------|----|-----------------------------|--|--|
| Discount Rate - 1% Healthcare Cost Discount Rate + 1% | | | | | | | |
| ` | Tread Rates (6.50% decreasing to 4.00%) to 4.00%) | | | | (8.50% decreasing to 4.00%) | | |
| \$ | 69,178,362 | \$ | 84,952,433 | \$ | 103,048,035 | | |

OPEB plan fiduciary net position. Detailed information about the OPEB plan's fiduciary net position is available in the separately issued plan financial report.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019, the City recognized OPEB expense of \$4,493,366. At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | Resources | f Resources |
|---|-----------------|--------------------|
| Difference between projected and actual earnings | \$ - | \$ (326,570) |
| Difference between expected and actual experience | - | (10,403,000) |
| Changes in assumptions | 4,782,000 | (147,000) |
| Total | \$ 4,782,000 | \$ (10,876,570) |

The difference between projected OPEB plan investment earnings and actual earnings is amortized over a five-year period. The remaining gains and losses are amortized over the expected average remaining service life. The expected average remaining service life is 5.0 years, which was determined as of June 30, 2018, the beginning of the measurement period, for employees covered by the OPEB plan benefit terms as of the valuation date.

Amount reported as deferred outflows of resources related to OPEB will be recognized as future OPEB expense as follows:

| Measurement Period Ended June 30 | | erred Outflows/ ws) of Resources |
|-------------------------------------|------|-------------------------------------|
| Elided Julie 30 | (шпо | ws) of Resources |
| 2020 | \$ | (3,257,892) |
| 2021 | | (1,179,892) |
| 2022 | | (891,892) |
| 2023 | | (764,894) |
| 2024 | | - |
| Thereafter | | |
| Total | \$ | (6,094,570) |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 12 - Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits employees to defer a portion of their salary until future years. In addition, there is a 401(a) plan allowed for one individual.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts are held in trust for the exclusive benefit of the employee participants and their beneficiaries. Therefore, the accumulated assets of the plan are not reported in the funds of the City. Pursuant to guidelines applicable to 401(a) plans, these assets are also not reported.

While the City has full power and authority to administer and to adopt rules and regulations for the plan, all investment decisions under the plan are the responsibility of the plan participants. The City has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. Under certain circumstances, employees may modify their arrangements with the plan to provide for greater or lesser contributions or to terminate their participation. If participants retire under the plan or terminate service with the City, they may be eligible to receive payments under the plan in accordance with provisions thereof. In the event of serious financial emergency, the City may approve, upon request, withdrawals from the plan by participants, along with their allocated contributions. The plan assets are not included in the accompanying financial statements.

Note 13 – Contingencies

The City is a defendant in various lawsuits which have arisen in the normal course of business. While damages are alleged in some of these actions, their outcome cannot be predicted with certainty.

Department of Finance ("DOF")

For almost four years, beginning in December 2013, the Successor Agency was involved in litigation with the DOF and the Los Angeles County Auditor/Controller. The DOF and County challenged a transfer of \$12.5 million in tax increment revenue by the Successor Agency to the City, and the Successor Agency challenged the efforts of the DOF and County to recover the disputed transfer through successive reductions by the County to the allotment of tax increment revenue to the Successor Agency. The trial court concluded that the DOF is not entitled to any further remedy against the Successor Agency related to the transfer, and in August 2018 the Court of Appeal (Third Appellate District) agreed. The Court of Appeal ruling is final. The Dissolution Act establishes a statutory remedy for the recovery of the disputed amount from the City and the State Controller has ordered the City to return the disputed amount to the Successor Agency. The State Controller's order is subject to administrative and judicial review which the City may elect to undertake.

Additional information and detailed attachments related to this matter have been posted on the Municipal Securities Rulemaking Board – Electronic Municipal Market Access website, as well as in prior year's financial statements.

There were no significant encumbrances outstanding at June 30, 2019.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 15 – Related Party Transactions

On May 15, 2012 the City loaned the City Manager \$711,000 secured by a Deed of Trust on residential real estate in the City of Culver City. The loan was pursuant to an employment agreement and for the purpose of incentivizing local residency. In addition, the loan bears interest initially at 0.867% per year which is one-half percentage points greater than the effective yield on investments in the State of California Local Agency Investment Fund for April 2011 and is subject to adjustment every August 1, based on the loan terms. Biweekly accrued interest is the minimum loan repayment although loan principal and interest can be paid. Payoff of the loan is the earlier of loan repayment of principal and interest or within twenty-four months of leaving employment with the City.

On June 17, 2013 the City loaned the City Manager additional \$489,000 for the improvement of the Culver City residence. The loan was secured by Second Deed of Trust on residential real estate in the City of Culver City. The loan bears the same rate and term as the initial \$711,000 loan and interest on this loan shall begin to accrue on July 1, 2013. As of June 30, 2019, the total balance of both loans outstanding was \$1,055,596. Interest payments received during the fiscal year was \$21,035.

Note 16 – Successor Agency Trust for Assets and Liabilities of Former Redevelopment Agency

On June 29, 2011, Assembly Bills 1x 26 (the "Dissolution Act") and 1x 27 (the "Continuation Act") were enacted as part of the FY 2011-12 state budget package. The Dissolution Act required each California redevelopment agency to suspend nearly all activities except to implement existing contracts, meet already-incurred obligations, preserve its assets and prepare for impending dissolution. Assembly Bill 1x 27 provided a means for redevelopment agencies to continue to exist and operate by means of a Voluntary Alternative Redevelopment Program.

The League of California Cities and the California Redevelopment Association (CRA) filed a lawsuit on July 18, 2011 on behalf of cities, counties and redevelopment agencies petitioning the California Supreme Court to overturn the Dissolution Act and Assembly Bill 1x 27 on the grounds that these bills violate the California Constitution.

On December 29, 2011, the California Supreme Court upheld the Dissolution Act and struck down the Continuation Act.

On June 27, 2012, as part of the FY 2012-13 state budget package, the Legislature passed and the Governor signed AB 1484, which made technical and substantive amendments to the Dissolution Act based on experience to-date at the state and local level in implementing the Dissolution Act.

Under the Dissolution Act, each California redevelopment agency (each a "Dissolved RDA") was dissolved as of February 1, 2012, and the sponsoring community that formed the Dissolved RDA, together with other designated entities, have initiated the process under the Dissolution Act to unwind the affairs of the Dissolved RDA. A Successor Agency was created for each Dissolved RDA which is the sponsoring community of the Dissolved RDA unless it elected not to serve as the Successor Agency. On January 9, 2012, the City adopted a Resolution electing to serve as the Successor Agency to the Culver City Redevelopment Agency.

The Dissolution Act allowed the sponsoring community that formed the Dissolved RDA to elect to assume the housing functions and take over the certain housing assets of the Dissolved RDA. AB 1484 modified and provided some clarifications on the treatment of housing assets under the Dissolution Act. The Culver City Housing Authority elected to serve as the Housing Successor Agency on January 9, 2012. Prior to February 1, 2012, the activities of the Dissolved RDA were reported in the governmental funds statements of the City. After the date of dissolution, the housing assets, obligations, and activities of the Dissolved RDA are reported in a fiduciary fund in the financial statements of the City.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 16 – Successor Agency Trust for Assets and Liabilities of Former Redevelopment Agency (Continued)

All other assets, obligations, and activities of the Dissolved RDA have also been transferred and are reported in a fiduciary fund (private-purpose trust fund) in the financial statements of the City.

The Dissolution Act and AB 1484 also establish roles for the County Auditor-Controller, the California Department of Finance (the "DOF") and the California State Controller's office in the dissolution process and the satisfaction of enforceable obligations of the Dissolved RDAs.

The County Auditor-Controller is charged with establishing a Redevelopment Property Tax Trust Fund (the "RPTFF") for each successor agency and depositing into the RPTFF for each six-month period the amount of property taxes that would have otherwise been paid to the Dissolved RDA as property tax increment. The deposit in the RPTFF fund is to be used to pay to the successor agency the amounts due on the successor agency's enforceable obligations for the upcoming six-month period.

The successor agency is required to prepare an annual recognized obligation payment schedule (the "ROPS") approved by the oversight board setting forth the amounts due for each enforceable obligation during each of two six month periods during the fiscal year. The ROPS is submitted to the DOF for approval. The County Auditor-Controller will make payments to the successor agency from the RPTFF based on the ROPS amount approved by the DOF. The ROPS is prepared in advance for the enforceable obligations due over the next twelve months.

The process of making RPTFF deposits to be used to pay enforceable obligations of the Dissolved RDA will continue until all enforceable obligations have been paid in full and all non-housing assets of the Dissolved RDA have been liquidated.

The State Controller of the State of California has been directed to review the propriety of any transfers of assets between Dissolved RDA and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 16 – Successor Agency Trust for Assets and Liabilities of Former Redevelopment Agency (Continued)

2011 Tax Allocation Revenue Bonds Series A and B

On March 4, 2011, the Agency issued \$13,827,887 of Series A Tax Allocation Capital Appreciation Bonds. The proceeds were used to: 1) pay costs of issuance 2) provide a reserve, and 3) finance certain redevelopment activity within the project area.

These bonds are secured and payable from tax increment revenue of the Agency.

In November 2017, the Agency issued a total of \$98,435,000 in bonds consisting of \$74,785,000 in 2017 Series A Tax-Exempt Bonds and \$23,650,000 in 2017 Series B Taxable Bonds. A portion of the 2017 Series A Bonds were used to defease and redeem all of the outstanding \$6,739,593 original principal amount Culver City Redevelopment Agency Tax Allocation Capital Appreciation Bonds, 2011 Series A maturing on and after November 1, 2025, with an aggregate accreted outstanding value of \$11,644,155 as of December 4, 2017.

The 2017 Bonds are subordinate to the debt service on the \$7,088,294 original principal amount Culver City Redevelopment Agency Tax Allocation Capital Appreciation Bonds, 2011 Series A maturing on November 1 commencing on November 1, 2019 through and including November 1, 2024, with an aggregate accreted value of \$11,275,586 as of November 1, 2017. Concurrent with the issuance of the 2017 Bonds, the Successor Agency irrevocably directed the trustee to transfer approximately \$9.3 million on deposit with the trustee to the Principal Account in order to pay scheduled future debt service on the 2011A Bonds as shown below:

| Pay ment | | Pay ment | Net Payable | |
|--------------|---------------|----------------|--------------|--|
| Date | Final | from Principal | from | |
| (November 1) | Acceted Value | Account | Tax Revenues | |
| 2020 | \$ 2,575,000 | \$ 2,575,000 | \$ - | |
| 2021 | 2,575,000 | 2,575,000 | - | |
| 2022 | 2,665,000 | 1,951,268 | 713,732 | |
| 2023 | 2,735,000 | - | 2,735,000 | |
| 2024 | 2,270,000 | | 2,270,000 | |
| Total | \$12,820,000 | \$ 7,101,268 | \$ 5,718,732 | |
| | | | | |

¹ The payment of debt service on the Non-Callable 2011A Bonds on November 1, 2024 will be made first from amounts on deposit in the reserve account under the Senior Indenture, to the extent available. Immediately after the refunding of the Callable 2011A Bonds, the balance in such reserve account will be approximately \$1.4 million. No amounts on deposit in the reserve account under the Senior Indenture will be released in connection with the refunding of the Callable 2011A Bonds.

Per the terms of the bond indenture, a reserve of \$1,382,995 is required to be maintained. At June 30, 2019, the reserve with fiscal agent was in the amount of \$1,383,230 and this amount will be applied to the November 1, 2024 debt service payment. The total amount of the 2011 TAB Series A outstanding as of June 30, 2019 was \$13,827,887. The accreted interest amount on the Capital Appreciation Bonds at June 30, 2019 was \$12,071,199.

On March 4, 2011, the Agency issued \$33,585,000 of 2011 Series B Tax Allocation Bonds. The proceeds of the debt were used to: 1) fund a reserve, 2) pay for costs of issuance, and 3) finance certain projects within the project area. The bonds are secured by a pledge of tax increment revenue derived from the Agency.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 16 – Successor Agency Trust for Assets and Liabilities of Former Redevelopment Agency (Continued)

2011 Tax Allocation Revenue Bonds Series A and B (Continued)

In November 2017, the Agency issued a total of \$98,435,000 in bonds consisting of \$74,785,000 in 2017 Series A Tax-Exempt Bonds and \$23,650,000 in 2017 Series B Taxable Bonds. Part of the outstanding 2011 Series B Bonds were defeased and redeemed by the 2017 Bonds.

The annual debt service requirements on these bonds are as follows:

| | 2011 Series A Tax Allocation Revenue Bond | | | | | | | |
|-------------|---|---------------|--------------|--|--|--|--|--|
| Fiscal Year | Principal | Interest | Total | | | | | |

2017 Tax Allocation Refunding Bonds Series A and B

On December 4, 2017, the Agency issued a total of \$98,435,000 in bonds consisting of \$74,785,000 in 2017 Series A Tax-Exempt Bonds and \$23,650,000 in 2017 Series B Taxable Bonds. The Bonds were issued to refund all of the outstanding 1999A, 2002A, 2004A, and 2005A bonds maturing on and after November 1, 2015 and part of 2011A bond beginning on or after November 1, 2021 and part of 2011B bond beginning on and after November 1, 2020. The transaction achieves 33 million in debt service cash flow savings, or 18 million in net present value savings.

2017 Series A Tax Allocation Bonds mature beginning November 1, 2020 with final payment of principal due on November 1, 2018. Interest rate is 4% in 2020 and 5% from 2021 to 2028.

2017 Series B Tax Allocation Bonds mature beginning November1, 2018 with final payment of principal due on November 1, 2020. Interest rate is 1.5% in 2018, 1.625% in 2019, and 2% in 2020.

Both 2017 Series A and Series B Tax Allocation Bonds are secured by and payable from tax revenues and were issued in denominations of \$5,000 and are not subject to optional redemption prior to their maturity dates.

| Total | \$74,785,000 | \$ 17,955,475 | \$92,740,475 | |

2017 B Tax Allocation Bonds

| Fiscal Year | Principal | Interest | Total | |
|-------------|--------------|---------------|--------------|--|
| 2020 | \$10,950,000 | \$ 120,169 | \$11,070,169 | |
| 2021 | 1,560,000 | 15,600 | 1,575,600 | |
| Total | \$12,510,000 | \$ 135,769 | \$12,645,769 | |

Pledged Revenues for Tax Allocation Bonds

The Trust has a number of Tax Allocation bonds outstanding that are collateralized by the pledging of property tax increment revenues. The amount and term of the remainder of these commitments are indicated in the debt service to maturity tables presented. The purposes for which the proceeds of the related debt issuances were utilized are disclosed in the debt descriptions in the accompanying notes.

Advances from Culver City Housing Authority

The advance of \$329,616 for ERAF, \$8,746,277 for SERAF, and \$10,299,928 for LMIHF Deferral can only be repaid pursuant to the maximum repayment amount defined in Health and Safety Code Section 34176(6)(B). Because of this, the number of years it will take to repay this advance is unknown.

Note 17 – Prior Period Adjustments

A. Government-Wide Financial Statements

The net position as of July 1, 2018 for Governmental Activities and Business-Type Activities were restated as follows:

| | Total | | | Total |
|--|-------|-------------|------------|--------------|
| | G | overnmental | Bu | isiness-Type |
| | | Activities | Activities | |
| Beginning net position, as previously reported | \$ | 71,297,852 | \$ | 58,148,907 |
| Cash and investments | | 10,000,000 | | - |
| Unearned revenue | | - | | (950,000) |
| Beginning net position, as restated | \$ | 81,297,852 | \$ | 57,198,907 |
| | | | | |

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2019

Note 17 – Prior Period Adjustments (Continued)

B. Fund Financial Statements

Fund balances as of July 1, 2018 were restated as follows:

| | General | M unicip al | | | |
|--|------------------|-------------|------------|--|--|
| | Fund | Bus Lines | | | |
| Beginning fund balance, as previously reported | \$ 80,762,036 | \$ | 24,079,954 | | |
| Cash and investments | 10,000,000 | | - | | |
| Unearned revenue | - | | (950,000) | | |
| Beginning fund balance, as restated | \$ 90,762,036 | \$ | 23,129,954 | | |

Fund balance at July 1, 2018 for General Fund was restated to correct the cash and investments for \$10 million that was set aside for Section 115 Trust but was mistakenly expensed. Fund balance at July 1, 2018 for Municipal Bus Lines was restated to correct an error in intergovernmental revenue in the amount of \$950,000.

Note 18 – Subsequent Events

In October 2019, the City issued \$19,360,000 Wastewater Facilities Revenue Bonds, 2019 Series A, to provide funds to (i) redeem all of the outstanding City of Culver City Wastewater Facilities Refunding Revenue Bonds, 2009 Series A; (ii) to finance certain capital improvements to the Sewer System of the City, and (iii) to pay costs of issuance of the 2019 Bonds. The bonds bear interest at rates of 3.00% to 4.00% annum payable semi-annually on March 1 and September 1. The final principal payment is due on September 1, 2039.

¹ Historical information is presented for measurement periods for which GASB 68 is applicable.

Notes to Schedule:

Benefit Changes: The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2017 valuation date. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions: In 2018, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. There were no changes in the discount rate. In 2017, the discount rate reduced from 7.65 percent to 7.15 percent. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.50 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense.) In 2014, amounts reported were based on 7.50 percent discount rate.

² Net of administrative expenses for 2013-14.

³ During Fiscal Year 2017-18, as a result of Governmental Accounting Standards Board Statement (GASB) No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions, CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California'a agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75. Additionally, CalPERS employees participate in various State of California agent pension plans and during Fiscal Year 2017-18, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB 68).

Notes to Schedule:

Valuation date:

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2017-18 were from the June 30, 2015 funding valuation report.

Methods and assumptions used to determine contribution rates:

| Actuarial cost method | Entry Age Normal Cost Method |
|---------------------------|---|
| Amortization method | Level percentage of payroll |
| Asset valuation method | Market value |
| Inflation | 2.75% |
| Salary increases | Varies by entry age and service |
| Payroll Growth | 3.00% |
| Investment rate of return | 7.50% net of pension plan investment and administrative expenses, including inflation. |
| Retirement age | The probabilities of retirement are based on the 2014 CalPERS Experience study for the period from 1997 to 2011. |
| Mortality | The probabilities of mortality are based on the 2014 CalPERS Experience Study for the period from 1997 to 2011. Preretirement and Post-retirement mortality rates include 20 years of projected mortality improvement using Scale BB published by the Society of Actuaries. |

² Covered Payroll represented above is based on pensionable earnings provided by the employer.

³ Payroll from 2018-19 of \$35,578,233 was assumed to increase by the 3.00 percent payroll growth assumption.

¹ GASB 75 requires this information for plans funding with OPEB trusts be reported in the employer's Required Supplementary Information for 10 years or as many years as are available upon implementation. The plan was not funded with an OPEB trust prior to 6/30/12.

Notes to Schedule:

Valuation date:

June 30, 2017 Actuarially determined contribution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contribution are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry Age Normal Cost Method Amortization method Level percentage of payroll 21-year fixed period for the 2018/19 ADC Remaining amortization period Asset valuation method Investment gains and losses spread over a 5-year rolling period. Inflation 2.75% Medical Trend Non-Medicare: 7.50% for 2019, decreasing to an ultimate rate of 4.00% in 2076; Medicare: 6.50% for 2019, decreasing to an ultimate rate of 4.00% in 2076. 3.00% Salary increases 6.50% Investment rate of return Based on CalPERS 1997-2015 Experience Study. Retirement age Mortality Mortality rates were based on CalPERS 1997-2011 Healthy Annuitant Mortality Table for Male or Females, as appropriate, with adjustments for mortality improvements

based on MP-2017 to converge to ultimate mortality improvement rates in 2022.

² The June 30, 2015 actuarial valuation provided the Actuarially Determined Contributions for fiscal years ended 6/30/16 and 6/30/17 and the June 30, 2017 actuarial valuation provided the Actuarially Determined Contributions for fiscal year ended 6/30/18 and 6/30/19.

Notes to the Required Supplementary Information (Unaudited) Budgetary Comparison Schedule For the Year Ended June 30, 2019

Note 1 - Budgets and Budgetary Data

The adopted budget of the City consists of a resolution specifying the total appropriation for each departmental activity, such as Police Administration, Street Maintenance, and other activities.

Total appropriations for each fund may only be increased or decreased by the City Council by passage of a resolution amending the budget, with the exception of budget adjustments which involve offsetting revenues and expenditures. In cases involving offsetting revenues and expenditures, the Chief Financial Officer is authorized to increase or decrease an appropriation for a specific purpose where said appropriation is offset by unbudgeted revenue which is designated for said specific purpose.

The City Manager has the authority to adjust the amounts appropriated between the departments and activities of a fund, objects within each departmental activity and between accounts within the objects, provided; however, hat the total appropriations for each fund do not exceed the amounts provided in the budget resolution.

The level at which expenditures may not legally exceed appropriations is the fund level.

All appropriations lapse at the fiscal year-end unless City Council takes formal action in the form of a resolution to continue the appropriation into the following year.

Budgets for the various funds are adopted on a basis consistent with generally accepted accounting principles in the United States. Annual appropriated budgets are legally adopted for the general, special revenue, debt service, capital projects, and proprietary fund types.

NONMAJOR SPECIAL REVENUE FUNDS

Gas Tax Fund - To account for state gasoline taxes received by the City. These funds may be used for street maintenance, right-of-way acquisition and street construction.

Proposition A Local Return Fund - To account for Proposition A funds received from the state. Proposition A funds are voter approved local sales taxes for transportation-related activities. Proposition A, approved by voters in 1980, is a one half of one percent (0.5%) tax on retail sales in Los Angeles County. The collection of this tax is administered by the County, which returns twenty five percent (25%) of the collections to cities within the County. The balance of Proposition A tax funds are used for rail development (35%) and discretionary purposes (40%). Almost the entire discretionary portion is used to fund bus service provided by Metro and 16 other municipal bus operators within the County, including culver City Municipal Bus Lines.

Proposition C Local Return Fund - To account for Proposition C funds received from the state. Proposition C, approved by voters in 1990, is an additional one-half of one percent (1.5%) tax on retail sales in Los Angeles County. Proposition C funds are allocated to the construction and operation of the bus transit and rail system (40%), expansion of rail and bus security (5%), construction of commuter rail transit centers, park and ride lots, and freeway bus stops (10%), and other transit related improvements to freeways and state highways (25%). Each year, more than \$1 billion dollars is generated in local transportation revenue.

Measure R Fund - To account for Measure R funds. Measure R is a one-half cent sales tax approved by Los Angeles County voters in November 2008 and is used to fund new transportation projects and programs. The Transportation and Public Works departments utilize the majority of this funding.

Operating Grants Fund - To account for operating grant funds resulting from the City's federal, state and local operating grants, and the qualified expenditures of these restricted funds.

Section 8 Housing Fund - To account for assistance provided by the Federal government dedicated to sponsoring subsidized housing for low-income families and individuals. The Housing Division in the Community Development Department is responsible for managing and administering Culver City's Section 8 housing Choice Voucher Program (HCVP) to provide retail subsidies for qualified low-income households.

Art in Public Places Fund - To account for the "Art in Public Places" program. The revenues for this Fund come from developer in-

Community Development Fund - To account for funds received from new development impact fees collected on non-residential construction in excess of 5,000 square feet. These fees may only be used to fund street improvements, traffic controls, and traffic management projects.

CDBG Fund - To account for Community Development Block Grant (CDBG) funds, and the qualified expenditures of these restricted funds for administrative expenditures such as personnel costs.

Special Assessment Fund - To account for benefit assessment district funds received from homeowners for special landscaping services of certain properties within the City.

This page intentionally left blank.

NONMAJOR SPECIAL REVENUE FUNDS

Park Facilities Fund - To account for funds received from development impact fees assessed on subdivision/residential development. These fees may be used for the improvement and expansion of public parks and park facilities throughout the City.

Asset Seizure Fund - To account for funds received from federal and local seized and forfeited properties. Such funds may be used for the detection and prevention of criminal activity, and the apprehension of criminals through Drug Abuse Resistance Education (D.A.R.E.), and other law enforcement programs.

Parking Authority Fund - To account for the operations of the Culver City Parking Authority, which currently includes the Cardiff Parking Structure. These funds may be used for parking related operations and infrastructure improvements.

Safe/Clean Water Protection Fund - To account for all activities associated with watershed management program plan. (Previously referred to as 'storm water' and 'Urban Runoff Mitigation'.)

Building Surcharge Fund - To account for funds received from a four percent (4%) surcharge on certain development related permit fees. The surcharge is used by City to fund digital imaging and storage plans and documents and technology improvements and maintenance to enhance customer service.

Paratransit Fund - To account for the portion of sales tax to be used to transport seniors and people with disabilities.

Measure M Fund - To account for Measure M funds. Measure M is a one-half cent sales tax approved by Los Angeles County voters in November 2016 and is used to fund new transportation projects and programs. The Transportation and Public Works departments utilize the majority of this funding.

MAJOR AND NONMAJOR CAPITAL PROJECTS FUNDS

Major Capital Project Fund Includes:

Capital Improvement and Acquisition Fund - To account for capital projects that are not otherwise funded by a special revenue fund or other specifically identified by the sources of funding. Project funding is mainly from general revenues allocated by action of the City Council.

Nonmajor Capital Project Fund Includes:

Cooperative Projects Fund - To account for former Redevelopment Agency unrestricted tax increment funds. These funds were transferred to the City under the 2011 Cooperation and Implementation Agreement (Agreement) and may only be used for qualified capital projects identified in the Agreement.

Capital Improvement Grants Capital Projects Fund - To account for grant funds awards to the City by federal, state, and local grant agencies for capital improvements, and the qualified expenditures of those restricted funds.

CDBG Capital Projects Fund - To account for Community Development Block Grant (CDBG) funds, and the qualified expenditures of these restricted funds for capital improvement projects.

INTERNAL SERVICE FUNDS

The Internal Service Fund accounts for financing of goods and services provided by one department to other departments of the City on a cost-reimbursement basis.

Internal Service Funds include:

Equipment Replacement Fund - Used to hold annual replacement payments from designated user departments and to use those funds to purchase equipment for general City purposes.

Equipment Maintenance Fund - Accounts for all activities of the City's central fleet maintenance operations, the costs of which are distributed among the designated user departments.

Risk Management Fund - Receives and disburses funds pertaining to the public liability and workers' compensation insurance programs. It also funds the Employee Disability (Injured On Duty) program for employee long-term work-related disabilities.

Central Stores Fund - Accounts for the timely purchase of needed materials, supplies and auto parts in advance of actual need. Departments are billed as items are issued for use.

| Debt service as a percentage of noncapital expenditures (a) | 15.5% | 12.6% | 11.0% | 0.4% | 0.4% |

Note:

(a) Debt service as a percent of noncapital expenditures is restated as follows: The amount of capital outlay used to calculate the ratio of total debt service expenditures to noncapital expenditures is the same as the reconciling item for capital outlay in the reconciliation between the government-wide statement of activities and the statement of revenues, expenditures, and changes in fund balance. Also only the principal and interest components of debt service expenditures are used in the calculation of the ratio of total debt service expenditures to noncapital expenditures.

Note:

- (a) Exemptions are netted directly against the individual property categories.
- (b) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information.

In 1978 the voters of the State of California passed Proposition 13 which limited taxes to a total maximum rate of 1%, based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum of 2%). With few exceptions, property is only reassessed as a result of new construction activity or at the time it is sold to a new owner. At that point, the property is reassessed based upon the added value of the construction or at the purchase price (market value) or economic value of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

Notes:

- (a) City's share of 1% Levy is based on the City's share of the general fund tax rate area with the largest net taxable value within the City.
- (b) Total Direct Rate is the weighted average of all individual direct rates applied by the government preparing the statistical section information
- (c) In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within.
- (d) Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners.

Source: HdL Coren & Cone, Los Angeles County Assessor

Notes:

- (a) Prior year data has been revised to include Base Year Revenue. The amount of each year's levy does not include Increment Revenue or Debt Revenue of the Redevelopment Agency. The Redevelopment Agency is not a blended component unit of the City due to AB 1x 26 Redevelopment Agencies Dissolution effective February 1, 2012.
- (b) Starting FY2008, penalty charges are excluded in total collections to date and delinquent taxes are reported by levy year rather than by collection year.
- (c) The decrease in percentage collected is the result of the State partial shift of financial responsibility for education funding to local governments by allocating local property tax revenues to Education Revenue Augmentation Fund (ERAF) directing that these local agency property taxes be deposited into funds to support schools.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Culver City. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident—and therefore responsible for repaying the debt—of each overlapping government. The overlapping debt represents 3.22% of the City's 2018/2019 assessed valuation or \$ 171.70 million.

Notes: Details regarding the city's outstanding debt can be found in the notes to the financial statements. Operating expenses do not include interest expense, depreciation, or amortization expenses.

⁽a) Per the Wastewater Facilities Revenue Bond covenant, interest earnings are included when computing net available revenue for bond compliance purposes.

⁽b) The 1999 Wastewater Facilities Revenue Bonds were issued on December 8, 1999. The 1999 Bonds were defeased and replaced by the 2009 Bonds issued on July 21, 2009.

⁽c) Due to the dissolution of the Culver City Redevelopment Agency (CCRA) on February 1, 2012, Tax Increment collections are through January 31, 2012.
