Washington Boulevard
Stormwater and Urban Runoff
Diversion Project
Background

2012 MS4 Permit

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
LOS ANGELES REGION

ORDER NO. R4-2012-0175
NPDES PERMIT NO. CAS004001

WASTE DISCHARGE REQUIREMENTS FOR MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) DISCHARGES WITHIN THE COASTAL WATERSHEDS OF LOS ANGELES COUNTY, EXCEPT THOSE DISCHARGES ORIGINATING FROM THE CITY OF LONG BEACH MS4
Measure CW

What will it be used for?

- Help keep polluted runoff from entering the Creek during the summer by diverting it to the wastewater treatment plant
- Infiltrate storm water into the ground, thereby increasing ground water supplies
- Develop and implement the Green Street Master Plan
- Monitor water quality in our waterways in compliance with State and Regional standards
- Meet State and Regional water quality requirements, thereby avoiding fines and penalties
- Provide education and outreach activities to teach children, residents, businesses and visitors why and how to prevent water pollution
- Construct multi-beneficial regional projects with public/private entities
- Regularly clean City storm drain pipes and street inlets to keep trash and pollutants from reaching our waterways and beaches
- Implement programs to reduce pollution from homes, streets, businesses and industry, such as Clean Beaches Restaurant Certification program

Culver City measure passed November 2016

$2 million generated annually

Water pollution reduction projects
Measure W

Passed November 2018

$300 Million generated annually for county

Safe Clean Water Program

YES ON W FOR SAFE AND CLEAN WATER
What is the Project?

- Divert stormwater and urban runoff from storm drain
- Pretreat flows
- Pump flows to subsurface storage system
- Divert flows to sanitary sewer and offset median irrigation
Project Elements

- Medians
- Pretreatment
- Pipe installation
- Pumps
- Storage
Medians

- 5 new medians
- Irrigated with captured runoff
- West Washington Improvement AIP
Pretreatment
Storage
Traffic Control

Temporary loss of curb-side parking

3 lanes of travel available

Limited left turning movements
Potential Impacts

- Lane closures
- Congestion
- Local access issues
- Transit impacts
- Turning prohibitions
- Commuter traffic delays
- Business access
- Bus stop alterations
Traffic Mitigation

- Work zone traffic control and changeable message signs
- Facilitate flow on Washington and alternative routes
- Intelligent project staging and work activities
Traffic Mitigation

Business coordination

Inter-governmental coordination

Public outreach
