Measure CC would continue to fund City services and programs, such as:

- Maintain City-funded after school programs, youth recreational programs and keep the Culver City Teen Center open.
- Continue providing graffiti removal, street sweeping, tree trimming, landscaping and other services to maintain neighborhoods.
- Provide the city with a guaranteed source of funding to invest in fixing sidewalks and potholes, repaving streets and improving pedestrian safety.
- Maintain 911 emergency response times by retaining firefighters and paramedics.
- Regularly clean City storm drain pipes and street inlets to keep trash and pollutants from reaching our waterways and beaches.
- Keep maintaining the City's numerous parks, playgrounds, sports fields and The Plunge (the City pool).
- Preserve police staffing levels to make sure there are enough on-duty officers to patrol streets, parks and neighborhoods.
